Dear Mr. Lowe:

Pursuant to Division Rule 19.15.15.13, COG Operating LLC (COG) respectfully requests administrative approval of an unorthodox oil well location for its Skull Cap Federal Com #22H well. The producing interval of this well does not meet the requirement of the producing area being 330' from the outer boundary. Attached is a Form C-102 showing the project/producing area of this well.

COG is seeking approval of the unorthodox location in order to maximize recovery of reserves. The New Mexico Oil Conservation Division's approval of the unorthodox completed interval for the Skull Cap Federal Com #22H well will allow for efficient recovery of reserves, thereby preventing waste and improving well performance.

The affected offset tract is the NW/4NE/4 of Section 8-T25S-R35E. Offset operators and the unleased mineral interest owner have been notified by Certified Mail of the proposed non-standard location. The notice letter advises said operators and owners that in the event they have an objection to COG's application, they must file a written letter with the Division within twenty (20) days from the date the Division receives this application.

Thank you for your consideration of this application. Should you have questions or require further information, please contact me at 575-748-6958 or by email at dwilbourn@concho.com.

Sincerely,

Debora L. Wilbourn
