Subject: Annual Temporary Permission to Discharge

Brad:

Attached please find the annual report for HPB-031, noting that there is actually nothing to report. However, Plains is anticipating the potential for several small-quantity discharges this year and Pamela J. Phillips (Pam) is currently preparing our submittal for a new permit.

Pam is our new Environmental & Regulatory Compliance Specialist working in our Carlsbad office. We both really appreciate your help and guidance in these efforts and we look forward to working with you on future projects.

Thanks and best regards,

Wayne E. Roberts

**Re: Annual Temporary Permission to Discharge Hydrostatic Test Water
Plains All American Pipeline, L.P.
Permit: HBP • 031
Annual Report**

Dear Brad:

Plains Pipeline, L. P. (Plains) hereby submits this annual report for the above-referenced permit, HBP-031, noting that no hydrostatic test water discharges took place pursuant to this permit. The permit was obtained based on optimistic commercial business opportunities and projections for construction that never materialized.

The anticipated piping/lease connection projects in 2014 were subsequently cancelled or rejected for business reasons and the permit was unused and allowed to expire.

Respectfully submitted,

Wayne E. Roberts
