Dear Mr. Stogner:

Chevron respectfully requests administrative approval to Simultaneously Dedicate the allowable for the Monument Tubb to the CH Weir A #13 and the CH Weir A #15.

Chevron is planning to recomplete the CH Weir A #15 as a gas well in the Tubb formation. The subject well was originally drilled completed in the Drinkard in 1984. In 1997, the #15 was plugged back and completed in the Blinebry. Currently, the well is downhole commingled in the Blinebry and Drinkard zones. It is proposed to complete as a gas producer in the Monument Tubb pool and downhole commingle with the two current zones.

Upon completion, the subject zone in the well would be simultaneously dedicated with the CH Weir A #13 on an 80 acre proration unit.

Notification to the necessary offset operators has been made.

If you have any questions concerning this application, please contact Keith Lopez at (432)-687-7120 or by email at LOPK@CHEVRON.COM.
