To Whom It May Concern:

Subject: Application to Surface Commingle

BP America Production Company requests approval to surface commingle the Indian Loafer Draw (Upper Penn), Strychnine Draw (Atoka & Strawn), and Little Box Canyon (Morrow) Gas Pools to gather gas, and transport to one lease for centralized compression and sales through one or both central sales points. The gas from each well will be metered separately prior to movement off lease and the individual well volumes will be allocated back based on metered production. A schematic of the commingling plan is attached to support the gas movement. The surface commingle will include all wells on the associated leases: B&C 25 Federal (NMNM93457), Crooked Canyon 35 Federal, Jaguar 26 Federal, and Leggett Federal (NMNM25336), Hilltop Federal, Nasser Federal (NMNM27451), Sweet Thing Federal Unit (NMNM91032A), Little Box State (VA1541), and the Sweet Thing 36 State (VA0802-3). We are also seeking authorization for subsequent additions from two undeveloped leases, the Josey 30 Federal (NMNM93460), and Lease Number NMNM93461 (Unnamed).

All wells in this application are flowing gas wells. All fluids produced on the individual leases will remain on the respective leases.

The ownership of these leases is diverse. Notice has been given to all interest owners in accordance with Subsection A of 19.15.14.1207 NMAC. Notice of a subsequent application to amend this order to add to the commingled production, other leases, pools or leases and pools that are within the defined parameters shall be sent only to the owners of interests in the production to be added that have not been previously noticed. Any previous applicable Surface Commingles or Orders will no longer be necessary upon approval and may be canceled.

Your cooperation in this matter is appreciated. If you have any questions, please contact me at (505) 394-1602. Please send you approval to proceed to my attention at the address listed below.

Sincerely,

Bob Manthei / kdm
