If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*

The spill was caused by the dresser sleeve bolts corroding allowing the sleeve to come apart and start leaking. The sleeve was removed and a collar and flange where installed.

Describe Area Affected and Cleanup Action Taken.*

30 ftX55ft to dry sandy grass pasture with no cows present. The site will be sampled and a cleanup action will be submitted for approval at a later date. A remediation plan was submitted and approved. Three feet of top soil was removed as per BLM requirement and hauled to CRI for disposal, and the site was contoured and seeded with BLM # 2 seed and the spill site was closed.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
