RE: Administrative approval of Unorthodox Location  
Federal 29-9-12 #1S  
610' FNL & 670' FWL  
Section 12, T29N, R9W  
San Juan County, New Mexico

Dear Mr. Stogner:

Energen Resources Corporation (Energen) hereby requests Administrative Approval for an Unorthodox Location of its proposed Federal 29-9-12 #1S Fruitland Coal well under the provisions of New Mexico Oil Conservation Division (NMOCD) order R-8768.

This well is located 610' fnl & 670' fwl of Section 12-T29N-R9W, San Juan County, New Mexico and dedicated to a spacing unit consisting of the W/2 of Section 12, in the Basin Fruitland Coal gas pool.

This well is closer than 660 feet to the Northern boundary of the proration unit, causing an unorthodox location. I have attached hereto a topographic map with the orthodox location window drawn in. As you can see, the drilling window basically lies within Manzanares Canyon with two (2) pipelines and four (4) BP well locations having already taken up all potential legal locations.

A copy of this application is being sent to all affected owners by certified mail-return receipt request with a request that they furnish your office in Santa Fe a Waiver of Objection within twenty (20) days of receipt of this application.

Attached is a well location plat showing dedicated acreage (C-102), a plat showing the offsetting spacing units and Fruitland Coal wells, if any, and a topographic map.

Your favorable consideration of this request would be appreciated.

Sincerely,

  
James C. Sullins  
District Landman
