Re: Administrative Approval of Simultaneous Dedication
Allison Unit #135S

Section 9-T32N-R6W
San Juan County, New Mexico

Dear Mr. Stogner:

Energen Resources Corporation (Energen) hereby requests Administrative Approval for a simultaneous dedication of its Allison Unit #135S Fruitland Coal well under the Provisions of New Mexico Oil Conservation Division (NMOCD) order R-8768.

This well is located as shown above in Section 9-T32N-R6W, San Juan County, New Mexico and dedicated to a spacing unit consisting of the W² (Lots 3, 4, S² NW⁴, SW⁴) of Section 9, in the Basin Fruitland Coal gas pool. There is an existing vertical Fruitland Coal well in the SW⁴ (Allison #135) which is presently producing.

This Allison #135S is a proposed horizontal well projected to bottom hole in the NW⁴. This horizontal well will have formation open to production which is 500' into the SW⁴ and conflicts with production from the initial well in the spacing unit which is already in the SW⁴. This is caused by the spacing unit being a short section and requiring the additional footage open to production to make an economic venture.

A copy of this application is being sent to all affected owners by certified mail-return receipt request with a request that they furnish your office any objections within twenty (20) days of receipt of this application.

Attached is a well location plat showing dedicated acreage (C102), a well profile, a plat showing the offsetting spacing units and Fruitland coal wells and a topographic map.

Your favorable consideration of this request is appreciated.

Sincerely,

David Poage
