Re: Lewis Park #1E  
Unit G, 2295' FNL & 2060' FEL,  
Section 13, T31N, R8W, San Juan County, New Mexico  
API # - 30-045-33390

Dear Sir:

This is a request for administrative approval for a non-standard gas well location in the Basin Dakota and Blanco Mesaverde pools.

The Lewis Park #1E was staked at an unorthodox location due to terrain. Steep cliffs and rugged terrain encompass a majority of the area within the legal spacing window for this formation. This location was twinned with the Lewis Park #100 and was staked as a twinned well to satisfy the BLM's request to minimize surface disturbance where possible. Consequently, this location was staked non-standard for the Basin Dakota and Blanco Mesaverde formation, to best fit the terrain. See the attached topo and aerial map for further clarification.

Production from the Basin Dakota and Blanco Mesaverde is included in the 320 acre gas spacing unit on the E/2 of Section 13, T31N, R8W.

To comply with the New Mexico Oil Conservation Division rules, we are submitting the following for your approval of this non-standard location:

1. Approved APD cover page and C102 plat showing location of the well
2. Burlington is the sole lessee of both the E/2 & W/2 of Section 13.
3. Topo and aerial maps

Both the E/2 and W/2 of section 13 fall under the same Lease Agreement USA NM-82815, therefore the ownership is the common. Burlington is the offset operator and 100% WI Owner of the affected section, the W/2 of Section 13, therefore no notification is required.

Sincerely,

Patsy Clugston  
Sr. Regulatory Specialist

Re: Lewis Park #1E  
Unit G, 2295' FNL & 2060' FEL,  
Section 13, T31N, R8W, San Juan County, New Mexico  
API # - 30-045-33390

Dear Sir:

This is a request for administrative approval for a non-standard gas well location in the Basin Dakota and Blanco Mesaverde pools.

The Lewis Park #1E was staked at an unorthodox location due to terrain. Steep cliffs and rugged terrain encompass a majority of the area within the legal spacing window for this formation. This location was twinned with the Lewis Park #100 and was staked as a twinned well to satisfy the BLM's request to minimize surface disturbance where possible. Consequently, this location was staked non-standard for the Basin Dakota and Blanco Mesaverde formation, to best fit the terrain. See the attached topo and aerial map for further clarification.

Production from the Basin Dakota and Blanco Mesaverde is included in the 320 acre gas spacing unit on the E/2 of Section 13, T31N, R8W.

To comply with the New Mexico Oil Conservation Division rules, we are submitting the following for your approval of this non-standard location:

1. Approved APD cover page and C102 plat showing location of the well
2. Burlington is the sole lessee of both the E/2 & W/2 of Section 13.
3. Topo and aerial maps

Both the E/2 and W/2 of section 13 fall under the same Lease Agreement USA NM-82815, therefore the ownership is the common. Burlington is the offset operator and 100% WI Owner of the affected section, the W/2 of Section 13, therefore no notification is required.

Sincerely,

Patsy Clugston
