Mr. A. L. Porter, Secretary and Director
Oil Conservation Commission
Box 871
Santa Fe, New Mexico

Dear Mr. Porter:

This is to request administrative approval of the unorthodox location to be located in the West Kutz Pictured Cliff Pool. The well, our Huerfano Unit No. 80 is to be located 674' from the South line and 979.8' from the East line of Section 32, Township 27 North, Range 10 West, N.M.P.M., San Juan County, New Mexico. The major part of the SE/4 of the Section which is dedicated to this well consists of a high bluff and high shale banks which are crossed by a dry wash. This location has been placed unorthodox due to the extreme expense which would occur in making it an orthodox location.

This is to be a Pictured Cliff completion and since El Paso Natural Gas Company is the operator of the Huerfano Unit and the NE/4 of Section 5, Township 26 North, Range 10 West is within the Huerfano Unit the approval of other operators has not been sought.

I am enclosing two copies of the Certified Well location plat sketching terrain conditions and two copies of our Intention to Drill.

Yours very truly,

E. J. Coel
Senior Petroleum Engineer
