LINDRITH AREA

Attention: Production Department

Gentlemen:

Sun Oil Company has staked a location in the captioned Area for the drilling of a gas well 1391.1 feet east of the west line and 1249.8 feet north of the south line, Section 32, Twp. 25 North, Rge. 3 West. In view of your leasehold ownership in the adjoining section, the New Mexico Conservation Commission pursuant to amended Rule 104 relating to unorthodox locations, has requested that we obtain your consent to such location. It is our belief that this location is sufficiently distant from your lease ownership that it will not adversely affect your interest in the Lindrith Area. Therefore, if acceptable to you we would appreciate your noting in the lower-lefthand corner your consent to the aforementioned location in order to satisfy the requirements of the Commission and also returning one signed copy to be filed with the Commission.

Yours very truly,

SUN OIL COMPANY
