Midland, TX 79701-5116

*Administrative Order NSL-3190*

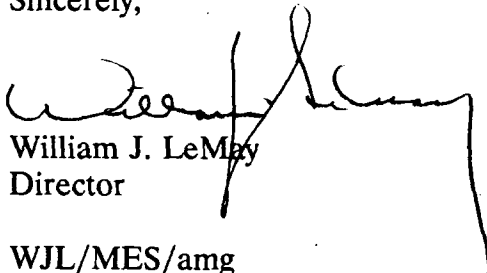

Dear Mr. Taylor:

Reference is made to your application dated October 14, 1992 for a non-standard gas well location for the Skelly Federal Well No. 2 to be drilled 1604 feet from the North line and 1912 feet from the West line (Unit F) of Section 9, Township 21 South, Range 24 East, NMPM, Cemetery-Morrow Gas Pool, Eddy County, New Mexico. The N/2 of said Section 9 shall be dedicated to the well forming a standard 320-acre gas spacing and proration unit for said pool.

By the authority granted me under the provisions of General Rule 104.F.(I) the above-described unorthodox Morrow gas well location is hereby approved.

Since the spacing of the Upper Pennsylvanian interval for this particular well is contingent to a pool dedication of a neighboring well to the south, Fasken's Skelly Federal Com Well No. 1 located in Unit M of said Section 9 (see Division Administrative Order NSL-400-A), such a request for intervals other than the Morrow is premature at this time and should therefore be denied. When such a request becomes absolutely necessary, the general rules provide for easy administrative authorization.

Sincerely,

William J. LeMay  
Director
