Re: *Administrative application for an exception to Rule 104.C (3) for Energen Resources Corporation's proposed Lackey Well No. 4-R (API No. 30-045-30436) to be drilled at an unorthodox Pictured Cliffs gas well location 2340 feet from the North line and 1765 feet from the East line (Unit G) of Section 10, Township 20 North, Range 9 West, NMPM, Aztec-Pictured Cliffs Pool, San Juan County, New Mexico.*

Dear Mr. Corcoran:

Please submit a copy of Division Administrative Order NSL-475 that was referenced in your application. Also since the Santa Fe office is in the long process of a very disorganized move I have no way of researching the history of the Lackey Well No. 4. To speed the processing of this application (and for any application for that matter) I am in need of a short historical outline of this well: i.e. it's spud date, completion date, plugging date, production history, its current status, and Energen's intent

Thank you.

Sincerely

Michael E. Stogner
Chief Hearing Officer/Engineer
