RE: Application for Unorthodox Jalmat Gas Well Location and Simultaneous Dedication (Mexico "G" #2) Jalmat (Tansill/Yates/Seven Rivers) Gas Pool UL F, Sect. 16, Town. 24S, Range 37E Lea County, New Mexico

Dear Mr. LeMay and Mr. Sexton:

Texaco Exploration and Production Inc. Respectfully requests administrative approval for an unorthodox Jalmat gas well location for the Mexico "G" #2, located 1980' FNL, and 2308' FWL, section 16, Township 24S, and Range 37E. The Mexico "G" #2 is currently completed in the Langlie Mattix formation and is shut-in due to uneconomical conditions. TEPI currently has plans to recomplete the subject well uphole to the Jalmat pool. TEPI also requests simultaneous dedication of the Jalmat gas production from the Mexico "G" #1 with the production from Mexico "G" #2 and the Mexico "G" #3, which to this date has not been spudded. The Mexico "G" #1 is a Jalmat gas well that is currently dedicated to an existing 160 acre proration unit comprised of the NW corner of section 16.

Attached is a C102 form identifying the proposed situation on the subject 160 acre Jalmat proration unit. Also attached is a list of offset operators and/or co-owners for this unit, and a land plat map of the surrounding area.

TEPI believes approval of this request will be in the interest of conservation, will protect correlative rights, and will allow for a more complete recovery of Jalmat gas reserves from the subject acreage.

TEPI Is notifying the offset operators of this application by sending a copy of this application package, along with waiver to objection forms, by certified mail. If you need further information, please call me at (505) 397-0426.

Singerew.

Note: No APO has been filed on the Mexico
