Re: Application of Texas American Oil Corporation for Approval of an unorthodox well location, Eddy County, New Mexico:

Gentlemen:

On behalf of Texas American Oil Corporation, I wish to apply to the Oil Conservation Commission for administrative approval of an unorthodox well location in Eddy County, New Mexico, as provided by Commission Rule 104 D II F., based upon the recompletion of a well previously drilled to another horizon.

Texas American Oil Corporation drilled its Sullivan Federal No. 1 well at a location 660 feet from the South line, and 660 feet from the West line of Section 5, Township 19 South, Range 24 East, N.M.P.M., Eddy County, New Mexico. This well was originally projected as a Devonian oil test, and 40 acres were dedicated to the well when the notice of intention to drill was filed with the Commission.

The well was subsequently recompleted in the Morrow formation, testing 880 MCF dry gas per day from 8163 feet to 8513 feet perforated interval. 320 acres have been dedicated to the well.

Since this well appears to be more than one mile from the nearest Morrow production, it would appear that a new pool should be created for Morrow production.

Your consideration of this application will be appreciated.

Yours very truly,

Jason W. Kellahin

son b. Kellal.

Oil Conservation Commission Santa Fe, New Mexico 87501

Application of Texas American Oil Corporation for Approval of an Unorthodox Well Location, Eddy County, New Mexico

Gentlemen:

In connection with the application for administrative approval of an unorthodox well location for the above applicant, for a well located 660 feet from the South and West lines of Section 5-19S-24E, we are submitting herewith three plats of the area showing the well location, lease ownership and offsetting ownership and offsetting wells.

If anything further is needed in connection with this please let me know.

Yours very truly,

Jason W. Kellahin
