Re: Non-Standard Location For
Brunson-B #7, Tubb Gas Pool,
Lea County, New Mexico

Dear Mr. Kapteina:

As discussed with you in our telephone conversation on August 26, 1974, administrative approval, as provided for in New Mexico Oil Conservation Commission Rule 104F, is requested for Cities Service Oil Company's Brunson-B #7, located 622 feet from the South line and 1990 feet from the West line of Section 3, Township 22S, Range 37E, Tubb Gas Pool, Lea County, New Mexico. Spacing rules provide that wells should be located 660 feet from lease lines.

This well is dually-completed in the Tubb and Drinkard formations. Approval to dually-complete this well was granted by Order No. MC-2107. Originally, this well was completed as a Drinkard oil well. Prior to this multiple completion this well was a Drinkard gas well.

In support of this request we are attaching the following:

1. Plat showing offset operators.
2. Copy of letter to offset operators advising them of this request.
3. Copies of receipts for certified mail to offset operators.

If you desire additional information please advise.

Thank you for your consideration of this request.

Yours very truly,
