> Re: Re-entry Morrow Test (Delfern Oil Co. #1-C Lea-State) E/2 Section 18, T-17-S, R-34-E, Lea County, New Mexico

Gentlemen:

Southern Union Supply Company proposes to re-enter the subject well and deepen same sufficient to test the Morrow formation and the time in which we are allowed to enter upon same and commence operation is very limited. The location of the old well that we propose to re-enter is situated 660 feet from the south and east lines of Section 18, T-17-S, R-34-E, Lea County, New Mexico

Should this test result as a commercial gas well the spacing will be 320 acres which would be an unorthodox location requiring us to obtain authority from the Oil Conservation Commission of the State of New Mexico to grant an exception to the well location requirements set forth in Section B & C of Commission Rule 104.

Under these conditions, and in accordance with the regulation, we are requesting a waiver from all offset operators prior to requesting Secretrary-Director approval.

If you are willing to agree to this waiver as an offset operator, please indicate your concurrence by signing and returning a copy of this letter.

Yours truly,

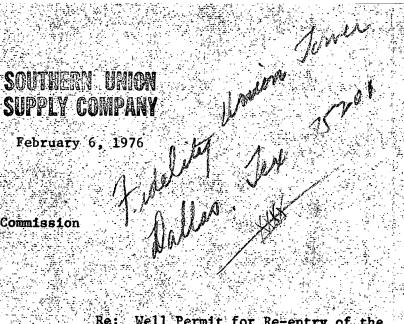

SOUTHERN UNION SUPPLY COMPANY

(See Plat Attached)

Re: Well Permit for Re-entry of the Delfern 011 Company #1-C Lea-State, old total depth 12,010, E/2 Section 18, T-17-S, R-34-E, Lea County, New Mexico

Gentlemen:

Find attached, hereto, six executed copies of an Application for Permit to Drill, Deepen or Plug Back, being your form C-101, and also four executed copies of your Well Location and Acreage Dedication Plat, form C-102; each for your consideration and approval. You will note that we propose to re-enter and deepen the old Delfern 011 Company #1-C Lea-State well which is location 660' out of the southeast corner of Section 18, T-17-S, R-34-E, Lea County, New Mexico, which is an unorthodox location if we are successful in completing it as a gas well in the Morrow formation. In as much as we are hopeful that this well will result as a commercial gas well we are in the process of obtaining waivers from all the adjacent leasehold operators as required under Section B & C of Commission Rule 104, and as soon as they have been returned to us we will forward them to you.

It is anticipated that the waivers can be readily obtained since the majority of the owners gave their consent in connection with our re-entry being our Gallagher 8 State well in Section 8, just north of this proposed location and this being the case it is hoped that you can review and approve this request at the earliest. possible date.

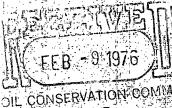

Yours truly,

C.g. Ham

Re: Well Permit for re-entry of the Delfern Oil Company #1-C Lea-State. Old total depth 12,010, E/2 Section 18, T-17-S, R-34-E, Lea County, New Mexico

10 4/ 1-

Gentlemen:

In my letter dated February 6, regarding the well permit for the subject re-entry I attached the proper copies of your Form C-101 and your Form C-102 for your consideration and approval. By letter dated February 9, Mr. Jerry Sexton, shown to be receiving copy of this letter, advised me that it would be necessary to get waivers from all the surrounding leasehold owners before an allowable could be assigned for a 320 acre spacing gas well, but that he was willing to issue the well permit and withhold the allowable until such time as the required information was furnished.

In line with your requirements we are attaching, hereto, waivers from all the surrounding leasehold owners who are: C. R. Gallagher, Jr., Southern Union Production Company, Marathon Oil Company, Mobil Oil Corporation and Phillips Petroleum Company. Should there be anything further required in this connection please so advise.

Yours truly munion C. J. Hammond

> Re: Re-entry Morrow Test (Delfern Oil Co. #1-C Lea-State) E/2 Section 18, T-17-S, R-34-E, Lea County, New Mexico

Gentlemen:

Ś

Southern Union Supply Company proposes to re-enter the subject well and deepen same sufficient to test the Morrow formation and the time in which we are allowed to enter upon same and commence operation is very limited. The location of the old well that we propose to re-enter is situated 660 feet from the south and east lines of Section 18, T-17-S, R-34-E, Lea County, New Mexico

Should this test result as a commercial gas well the spacing will be 320 acres which would be an unorthodox location requiring us to obtain authority from the Oil Conservation Commission of the State of New Mexico to grant an exception to the well location requirements set forth in Section B & C of Commission Rule 104.

Under these conditions, and in accordance with the regulation, we are requesting a waiver from all offset operators prior to requesting Secretrary-Director approval.

If you are willing to agree to this waiver as an offset operator, please indicate your concurrence by signing and returning a copy of this letter.

Yours truly,

SOUTHERN UNION SUPPLY COMPANY

> Re: Re-entry Morrow Test (Delfern Oil Co. #1-C Lea-State) E/2 Section 18, T-17-S, R-34-E, Lea County, New Mexico

Gentlemen:

Southern Union Supply Company proposes to re-enter the subject well and deepen same sufficient to test the Morrow formation and the time in which we are allowed to enter upon same and commence operation is very limited. The location of the old well that we propose to re-enter is situated 660 feet from the south and east lines of Section 18, T-17-S, R-34-E, Lea County, New Mexico

Should this test result as a commercial gas well the spacing will be 320 acres which would be an unorthodox location requiring us to obtain authority from the Oil Conservation Commission of the State of New Mexico to grant an exception to the well location requirements set forth in Section B & C of Commission Rule 104.

Under these conditions, and in accordance with the regulation, we are requesting a waiver from all offset operators prior to requesting Secretrary-Director approval.

If you are willing to agree to this waiver as an offset operator, please indicate your concurrence by signing and returning a copy of this letter.

Yours truly,

SOUTHERN UNION SUPPLY COMPANY

By Koyg Shannock Roy G. Sharrock

ACCEPTED this 12 day of Febr 1976.
