STN 20 1973
Southland Royalty Company

December 30, 1977

NSK-919
Rule 104 F
Feb 9, 1978
Blanco Mesaverde Pool 1

Mr. Joe D. Ramey
Secretary-Director
New Mexico Oil Conservation Commission
P. O. Box 2088
Santa Fe, New Mexico 87501

Dear Sir:

Southland Royalty Company hereby makes application for administrative approval of the unorthodox location of the Hanks #24 well to be completed in the Mesaverde formation. The proposed location is 650' FNL & 1850' FEL, of Section 5, T27N, R9W, San Juan County, New Mexico.

The unorthodox location is due to difficult terrain, specifically the edge of Harris Mesa.

The operators of the offset acreage are El Paso Natural Gas Company, Tenneco and AMAX Petroleum Corp. They have been notified of this application by certified mail.

Yours truly,

Curtis C. Parsons

Re: Request for Non-Standard
Locations East Well No. 5A
and Hanks Well No. 24

Dear Mr. Parsons:

In reviewing the subject applications I find:

- (1) That the Form C-102, Well Location and Acreage Dedication Plat, filed for the East Well No. 5A does not reflect the non-standard proration unit outlined in your application and;
- (2) That the plat accompanying the Hanks Well No. 24 application does not identify the lease ownership West and South of the proration unit, the acreage to be dedicated to the well, nor does it describe the existant topographical conditions all as required.

Please clarify these matters or complete the applications as noted above. Upon receipt of the additional required data, we will process the applications.

Very truly yours,

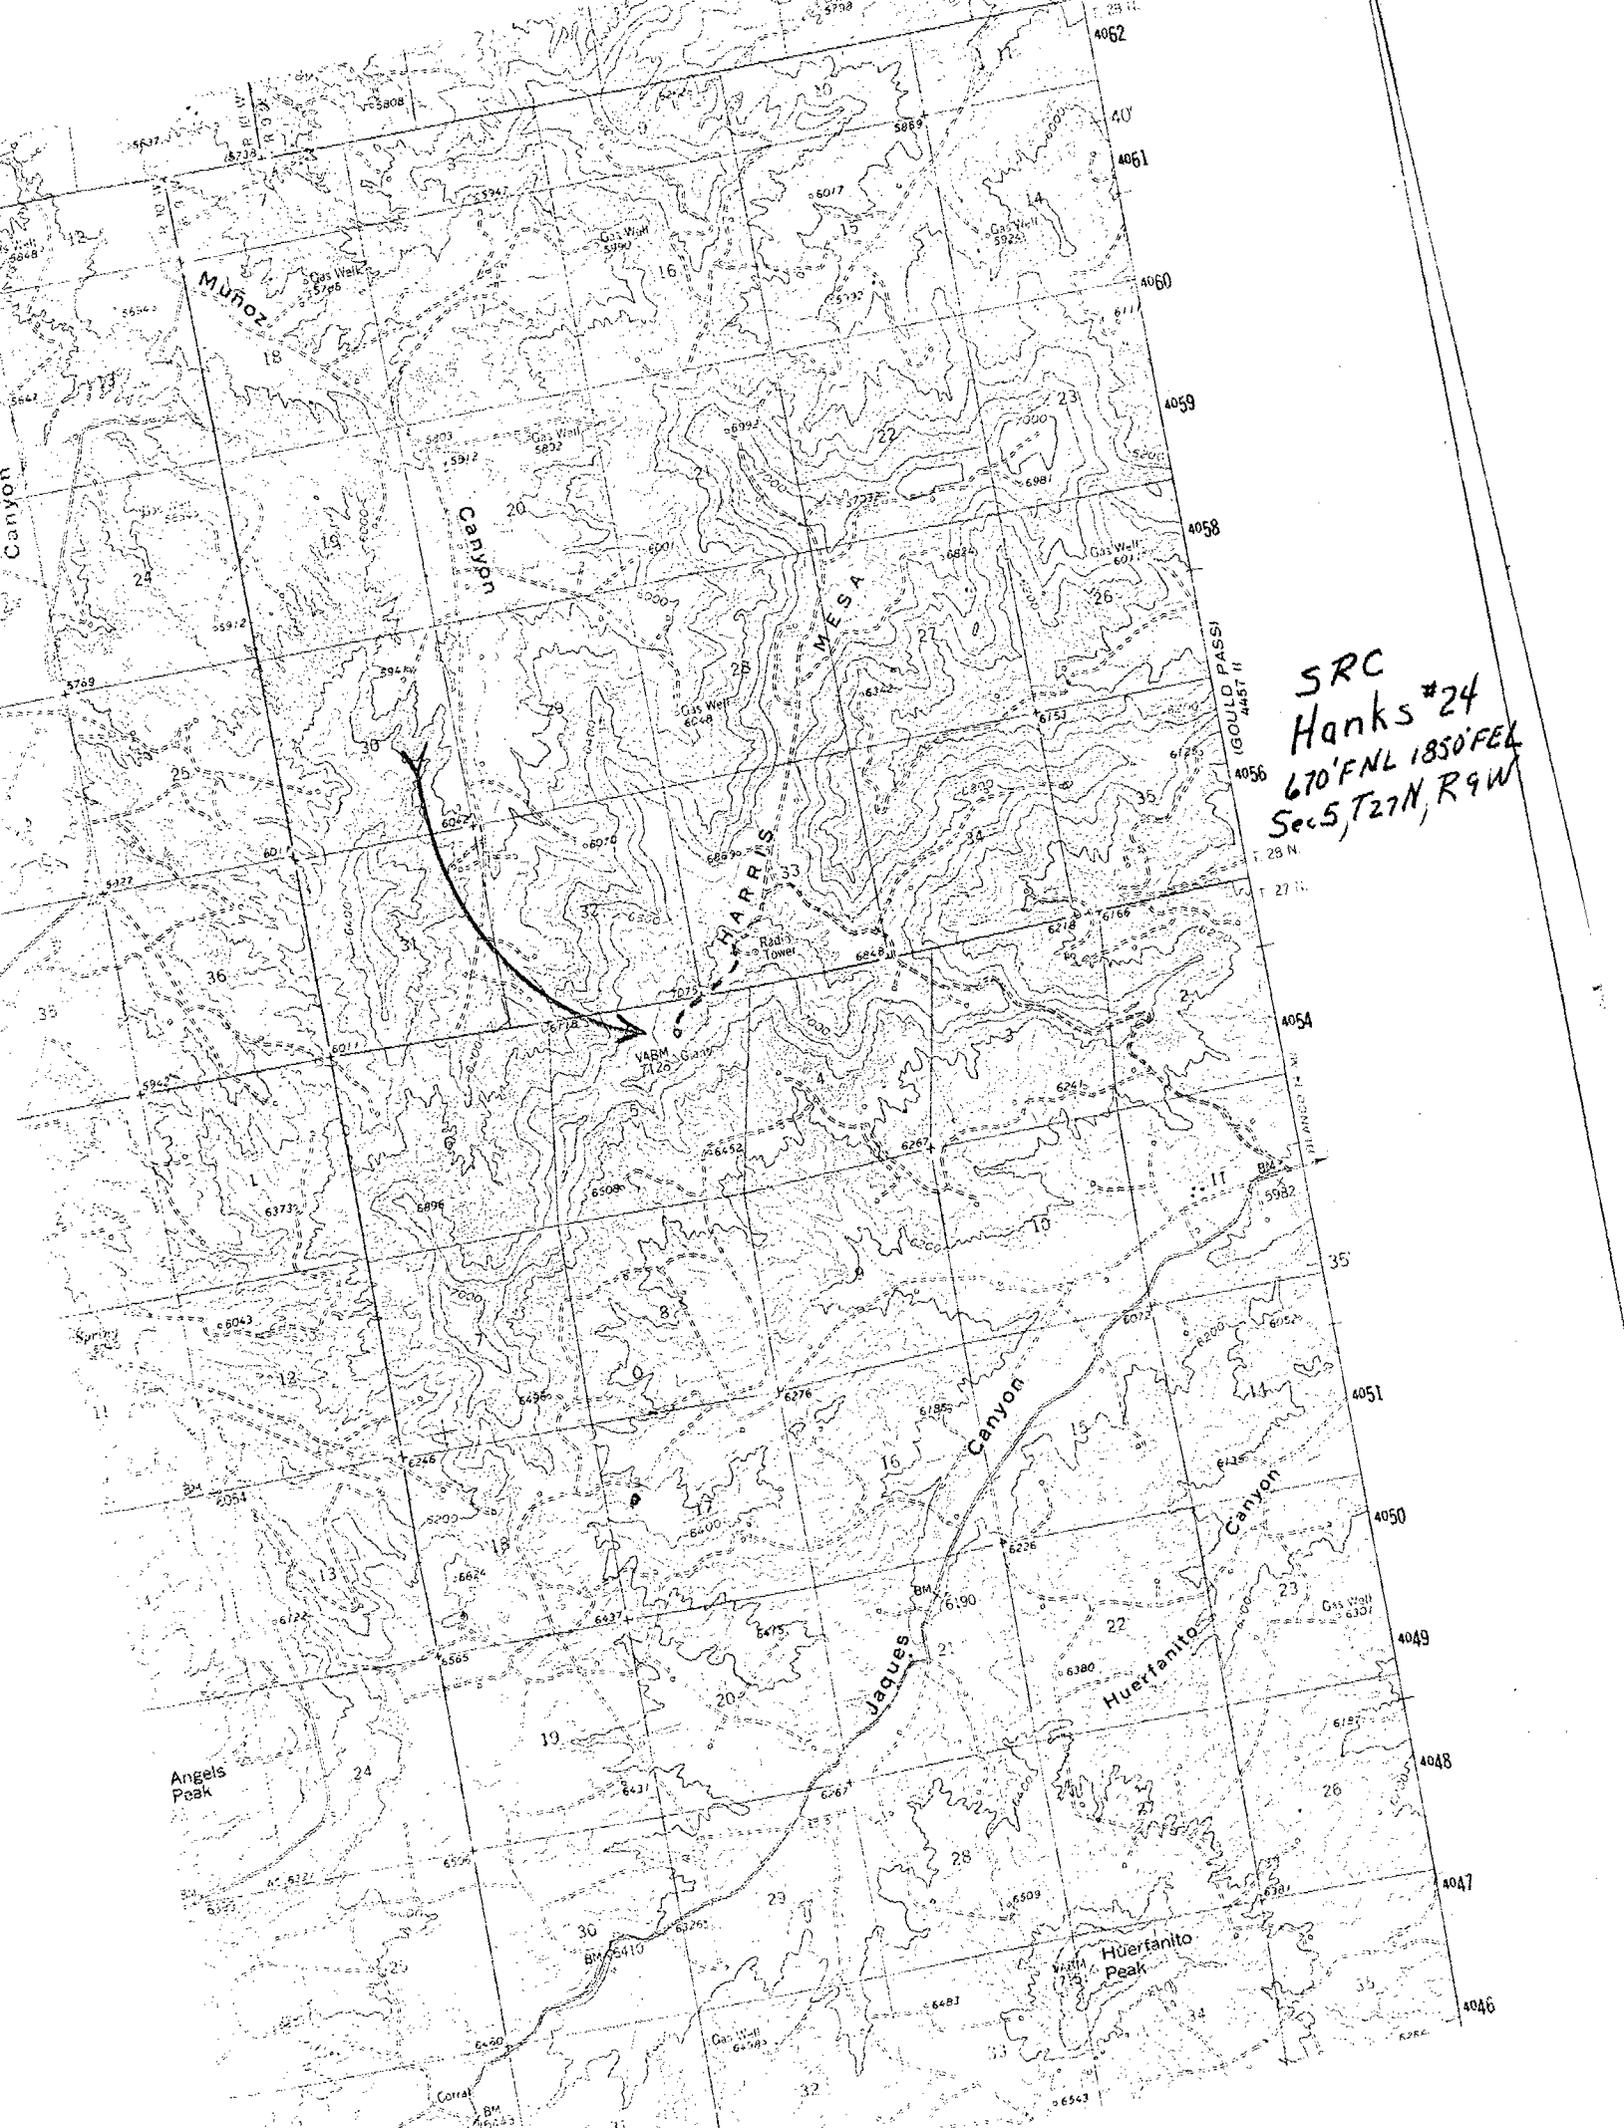

R. L. STAMETS

RE: Request for Non-standard
Location for Hanks #24

Dear Sir:

The attached plat and topographic map are submitted to show acreage dedication, ownership of offset acreage, and severe topographical conditions pertinent to the application for non-standard location of the Hanks #24, Mesa Verde Well.

Please attach this to the original application dated December 30, 1977.

Yours truly,

Curtis C. Parsons
District Engineer

AMAX Petroleum Corp.
900 Town & Country Lane, Suite 400
Houston, Texas 77024

Dear Sir:

Southland Royalty Company is making application for administrative approval of the unorthodox location of the Hanks #24. This is a Mesaverde well to be drilled 670' FNL & 1850' FEL, Section 5, T27N, R9W, San Juan County, New Mexico.

Topography, specifically the southeast edge of Harris Mesa, makes it impractical to build an orthodox location.

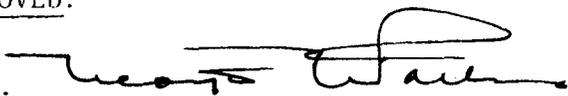

If you have no objection to this location, please sign the bottom of this letter and forward to the New Mexico Oil Conservation Commission. Please, also, sign the attached copy and return for our files. Addressed envelopes have been enclosed.

If you have any questions, please contact me. Thank you for your assistance.

Yours truly,

Curtis C. Parsons
District Engineer
