JANUARY 24, 1978

It is necessary to revise these locations to avoid interference with pipelines, roads, fences, electrical lines and other surface obstructions. A plat indicating the nature of the obstructions is attached for each of the wells. Moving the locations of these wells will not result in the loss of any reserves or interfere with any correlative rights. A plat of the Central Vacuum Unit showing the revised locations for these wells is also attached.

Waivers of Protest for unorthodox locations on wells No. 5, 6, 13, 25, 26, 27, 46, 61, 122 and 129 have been submitted to offset operators for their approval. We anticipate that these waivers will be forthcoming. You will be furnished a copy when they are obtained.

Yours very truly,

J. V. Gannon  
District Superintendent
