RE: Pete #2
Pictured Cliffs well *in*

~~Went back Pictured Cliffs~~

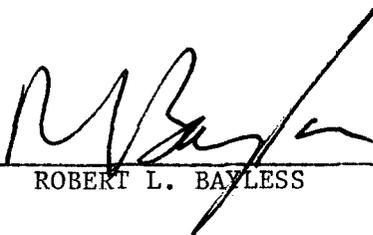

Gentlemen:

We request administrative approval of an unorthodox location for the above well due to extreme sandy conditions in the dry washes which are shown on the attached topographical map. The actual location will be 730 feet FSL and 700 feet FEL of Section 35, T27N, R12W.

We are sending certified letters to the offsetting lease holders as shown on the attached lease plat. Please advise if you need additional information.

Yours truly,

MERRION & BAYLESS

Re: Application for Non-Standard
Location: Pete No. 2, 730' FSL
and 700' FEL of Sec. 35, T-27-N,
R-12-W, San Juan County

We may not process the subject application for non-standard location until the required information or plats checked below (is) (are) submitted.

- A plat must be submitted clearly showing the ownership of the offsetting leases. Map submitted is not clear as to ownership to the west.
- A statement must be submitted that offset owners have been notified of the application by certified mail.
- A plat must be submitted fully identifying the topography necessitating the non-standard location.
- Other:

Mr. Joe D. Ramey
New Mexico Oil Conservation Division
P. O. Box 2088
Santa Fe, New Mexico 87501

Dear Mr. Ramey:

We have been advised by Merrion & Bayless of their unorthodox location for the #2 Pete well located 730 feet from the south line and 700 feet from the east line of Section 35-T.27N-R.12W which is an offset to my lease.

Please be advised that I have no objection to this location.

Very truly yours,

Jerome P. McHugh
