Re: DEPCO, INC.

Burns Federal #1-E infill ^{Basin} Dakota ^{under} Chacra dual
Unit I Section 5-T26N-R7W
Rio Arriba County, New Mexico

Dear Sir:

As provided in Rule 104-F; DEPCO, INC. is requesting an exception to the location requirement of Rule 104-C II (b) for the above captioned well to be located 730' FEL and 1490' FSL of Section 5.

The reason for this request for the non-standard location is the extreme topography in the area that makes it impossible to construct a standard drill site: i.e. 600' vertical cliffs and a one-half mile wide wash.

The attached copy of a U.S.G.S. topographic map shows the general situation. Also attached is evidence of notification of the above request to the off-set operators of the proposed well, as per regulation.

We would appreciate a reply at your earliest convenience.

Very truly yours,

F. P. Crum, Jr., agent
DEPCO, INC.

Re: Application for Non-Standard
Location: Depco, Inc. Burns
Federal No. 1-E, Unit I, Sec. 5,
T-26-N, R-7-W, Rio Arriba County

We may not process the subject application for non-standard location until the required information or plats checked below (is) (are) submitted.

☐ A plat must be submitted clearly showing the ownership of the offsetting leases.

☐ A statement must be submitted that offset owners have been notified of the application by certified mail.

☐ A plat must be submitted fully identifying the topography necessitating the non-standard location.

☒ Other: Please identify the projected pool or formation and the acreage to be dedicated to the well.

Very truly yours

R. L. STAMETS
Technical Support Chief
