Dear Mr. Ramey:

Application for Right to Produce
Basin Dakota Gas from Garcia Gas Com "B" No. 1-E
Unorthodox Well Location in SW/4 of Section 21-T29N-R10W
San Juan County, New Mexico

By this verified application submitted in triplicate, Amoco Production Company requests approval to produce gas from the Basin Dakota Formation in Garcia Gas Com "B" No. 1-E, 790' FSL and 590' FWL of Section 21-T29N-R10W.

A Form C-102 is enclosed illustrating the problems encountered in selecting a suitable well site. The selected well site is an exception because the permissible location for a Basin Dakota infill well must be at least 790' from the outer boundary line of the undrilled quarter section of the 320 acre proration unit, and be at least 130' from any quarter quarter section line or subdivision inner boundary. This unorthodox location is 200' shy of the minimum permissible distance from the west boundary of the SW/4 of Section 21.

A plat also is enclosed which shows offset wells and operators. In this instance there is no offsetting acreage, other than Amoco's leaseheld acreage, that could be affected by the unorthodox location of Garcia Gas Com "B" No. 1-E.

Joe D. Ramey

Form C-107
Revised 10-1-

All distances must be from the outer boundaries of the Section.

Operator AMOCO PRODUCTION COMPANY			Lease GARCIA GAS COM "B"		Well No. 1E
Unit Letter M	Section 21	Township 29N	Range 10W	County San Juan	
Actual Footage Location of Well: 790 feet from the South line and 590 feet from the West line					
Ground Level Elev: 5471	Producing Formation Dakota		Pool Basin Dakota		Dedicated Acreage: 320 Acres

1. Outline the acreage dedicated to the subject well by colored pencil or hachure marks on the plat below.
2. If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).
3. If more than one lease of different ownership is dedicated to the well, have the interests of all owners been consolidated by communitization, unitization, force-pooling, etc?

Yes No If answer is "yes," type of consolidation Communitization

If answer is "no," list the owners and tract descriptions which have actually been consolidated. (Use reverse side of this form if necessary.)

No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, forced-pooling, or otherwise) or until a non-standard unit, eliminating such interests, has been approved by the Commission.

Re: Application for Non-Standard
Location: Garcia Gas Com "B" Well
No. 1, Unit E, 21 T-29-N, R-10-W,
San Juan County, New Mexico

We may not process the subject application for non-standard location until the required information or plats checked below (is) (are) submitted.

A plat must be submitted clearly showing the ownership of the offsetting leases.

A statement must be submitted that offset owners have been notified of the application by certified mail. El Paso Natural Gas Company appears to be an offset to the northwest of the proration unit.

A plat must be submitted fully identifying the topography necessitating the non-standard location.
