NATURE OF RELEASE

Type of Release: Produced Water	Volume of Release: 20 barrels	Volume Recovered: 0 barrels
Source of Release: Asbestos Cement Pipeline	Date and Hour of Occurrence: 1/24/06	Date and Hour of Discovery: 1/24/06 12:00 pm
Was Immediate Notice Given? <input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	If YES, To Whom?	
By Whom?	Date and Hour:	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse:	

If a Watercourse was Impacted, Describe Fully.*

*NEED CHLORIDES OF
WATER SPILLED*

Describe Cause of Problem and Remedial Action Taken.* 6" A/C line cracked. Pipeline was clamped.

Describe Area Affected and Cleanup Action Taken.* Approximately 1892 sq ft affected. Areas highly impacted were excavated to 3 ft. All excavated soils were blended below 250 ppm chlorides. Field samples were taken and sent to a laboratory for confirmation. The excavation was backfilled and contoured with the surrounding terrain. The site is scheduled for seeding in September 2006.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
