If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*
This well has a 2" fiberglass flow line and it appears to have partially parted where it 45's up to come out of the ground. We picked up the standing water with a third party vacuum truck and hauled it to their disposal.

Describe Area Affected and Cleanup Action Taken.*
Fluid spread to and area of 100' X 100' on location. Loose fluid picked up off location and we will dress up location. All fluids remained on location. Chlorides 54,667 ppm

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
