RE: Unorthodox Location
Seven Rivers Queen Unit No. 72
Lea County, New Mexico
South Eunice Field

Kanglie-Mattix Pool 40 Acres ded. NEIY NWHY Scelan 34

Dear Mr. Stamets:

ARCO Oil and Gas Company respectfully requests administrative approval to drill its Seven Rivers Queen Unit No. 72, a proposed producing well in an active waterflooding unit, at an unorthodox location of 1160' FNL & 2630' FWL, Section 34, Township 22 South, Range 36 East, Lea County, New Mexico. The well is to be drilled to a TD of 3900' to test the Seven Rivers and Queen formations. In ARCO's opinion, completion of the well at the proposed location will provide an efficient production and injection pattern within a secondary recovery This well is expected to recover unswept oil by project. increasing the amount of floodable pay and by increasing the injection efficiency due to increased continuity. proration units which offset this proposed well are all within the Seven Rivers Queen Unit and, therefore, no offset operators are to be notified of this request. Attached is a plat showing the Seven Rivers Queen Unit and the proposed well's location.

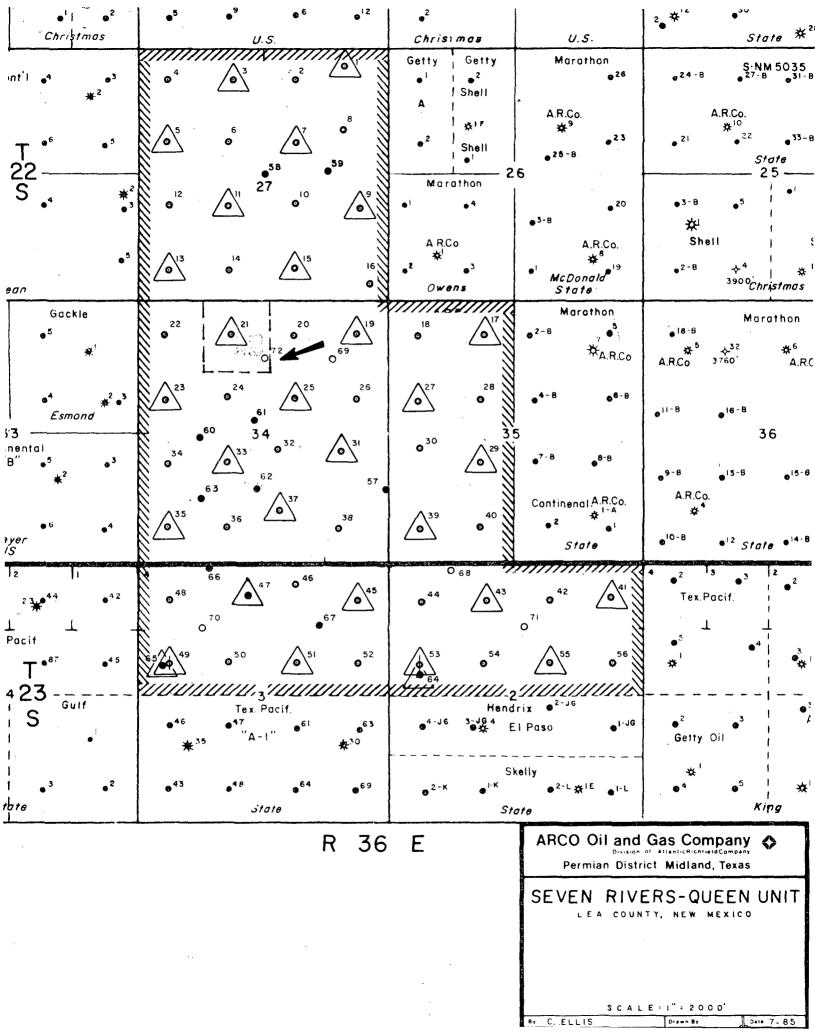

Very truly yours,

S. G. Suellentrop District Engineer
