Re: Hosmer Federal #2
NW 1/4, Sec. 13, T6S, R22E
Chaves County, N.M.

Gentlemen:

Mckay Oil Corporation requests an approval for an unorthodox location in the NW 1/4, Section 13, Township 6 South, Range 22 East, NMMPM. (See Attachment 'A') Due to topography and geological problems, McKay Oil is requesting an unorthodox status.

The well was originally staked at 1980 feet from the North line and 1980 feet from the West line. Due to the terrain, the BLM would not approve this location or any other standard location within this particular drilling spacing unit. (See Attachment 'B')

The ~~Southeast~~ quarter of this quarter section was chosen because of geological data on surrounding wells. Further, any location in this quarter section that would be feasible to drill would have to be a non-standard location. Therefore, it is our opinion that this location would be the only economical and productive location to drill. (See Attachment 'C')

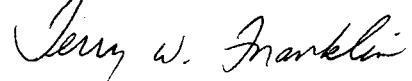

All minerals surrounding this proration unit are lease to McKay Oil Corporation. (See Attachment 'A')

Therefore, McKay Oil requests that the O.C.D. approve the ~~unorthodox~~ location at 2030 feet from the North line and 2180 feet from the West line, Section 13, Township 6 South, Range 22 East, NMMPM, which has been approved by the BLM and E.N.M. Archaeological Service.
