The E1/2 of said Section 28 shall be
dedicated to the Blanco Mesaverde and
the SE1/4 of said Section 28 shall
be dedicated to the West Lindrith
Gallup Dakota Pool.

Dear Mr. LeMay:

Union Texas Petroleum requests administrative approval of an unorthodox location for a Blanco Mesaverde/West Lindrith Gallup-Dakota commingled completion. The basis for our request is for topographic reasons and the proximity of existing pipelines.

The only offset operator, which has been notified of our intentions, is Southern Union Exploration. A copy of their letter is attached for your review.

If I may be of any further assistance, please advise.

Very truly yours,

Robert C. Frank

Dear Mr. LeMay:

Union Texas Petroleum received a waiver of objection from the only offset operator affected by our proposed unorthodox location. A copy of their response is attached for your review.

If I may be of any further assistance, please advise.

Very truly yours,

Gentlemen:

Union Texas Petroleum desires to drill a Blanco Mesaverde/
West Lindrith Gallup-Dakota test at an unorthodox location
of 1240' FSL and 710' FEL. A standard location of 1850' FSL
and 790' FEL is not possible due to topography and the
proximity of existing pipelines.

As an offset operator we are required to notify you of our
intentions. If you do not approve of our proposal, you
have twenty days from this date to notify the Director of
the Oil Conservation Division in Santa Fe, New Mexico. If
you are in accord with our proposal, please acknowledge by
signing and returning one copy of this letter to Union Texas
Petroleum at your earliest convenience.

Very truly yours,

Robert C. Frank
Permit Coordinator
