An approximate area of 25' X 30', on well pad. Well shut in, vacuum truck was called to pick up standing fluid, contaminated soil were excavated and taken to an OCD approved land disposal facility **Depth to Ground Water: 50-99' (approximately 60'); Wellhead Protection Area: No; Distance to Surface Water Body: >1000'; SITE RANKING IS 10. Yates is requesting final closure based on the enclosed analytical results, and cleanup actions (oil and water recovered, soils excavated).**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Dear Mr. Williams

Enclosed, please find a C-141, Final Report (original closure request was faxed to your office on August 8, 2006 and mailed to your office on August 16, 2007). The contaminated soils were excavated and taken to an OCD approved disposal facility, a sampling event was requested with your office on July 26, 2006 and samples were taken on July 28, 2006 (results are enclosed). The site ranking for this area is (10) ten.

Yates Petroleum Corporation requests closure of the site.

If you have any questions, please call me at 505-748-4217.

Thank you.
