**Cc:** 'Jeff'; Price, Wayne, EMNRD  
**Subject:** RE: Rice ICP C-4-3 Junction Box BD SWD system

Dear Ms. Pope:

The NMOCD has reviewed the submitted Investigation Characterization Plans (ICPs), dated August 3, 2007, for the above referenced sites. The NMOCD hereby conditionally approves the following ICPs for the Rice Operating Company sites:

- 1. BD SWD H-19 Vent submitted by Highlander Environmental Corp. on 8/13/2007 #1R426-09
- 2. BD SWD C-4-3 Junction Box submitted by Highlander Environmental Corp. on 8/13/2007 #1R426-105

In Task 2 for both ICPs please include the analysis for “general chemistry”, including TDS and sulfate for potential groundwater sampling.

Also, please be advised that NMOCD approval of these plans does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.

If you have questions regarding this matter, please contact me at 505-476-3489.

Edward J. Hansen  
 Hydrologist  
 Environmental Bureau

P.S.: Please use the respective OCD case #s on future correspondence regarding the sites listed above.

8/14/2007

Dear Mr. Hansen,

Please find enclosed a copy of the ICP for the Rice Engineering C-4-3 Junction Box SWD System. Sorry that we did not have a draft copy of this ICP during the last meeting. However, was wondering if you could possibly review at your earliest convenience.

If you have any questions, please do not hesitate to call either myself or Tim Reed at 432-682-4559.

Thanks for your help,

Jeffrey Kindley, P.G.  
Senior Project Geologist  
Highlander Environmental Corp.
