Attn: Michael Stogner

Re: New Mexico M State # 52 - API #30-025-37613 Unorthodox Location Section 18-T22S-R37E Leas County, NM

Dear Mr. Stogner:

Range requests administrative approval of an unorthodox location for the subject well located as follows:

1420' FSL & 2310' FEL Unit J, Section 18-T22S-R37E

Range's New Mexico M State lease covers the SE/4 of Section 18 with common ownership in the 160 acres from the top of the San Andres to a depth of 6730' from surface. As a result, the location which is 110' FSL does not encroach upon any outside parties. The royalty owners are the same in both pools.

The downhole commingling of the Drinkard Oil & Gas and the Tubb Oil & Gas of oil, gas and water from the two fields will not reduce the value of the remaining production.

If you have any questions or concerns, please feel free to contact me at my office number below.

Respectfully,

dal

Linda Brown Regulatory Analyst (817) 869-4145 lbrown@rangeresources.com
