Administrative Order SD-200634-A

Re: **Meyer B 28 A Com AC2 Well No. 6**
API No. 30-025-38764
Unit J, Section 28, Twsp 20S, Range 37E
Lea County

Dear Mr. Young:

Reference is made to the following:

(a) your application (**administrative application reference No. pKVR 08-04328881**) submitted to the New Mexico Oil Conservation Division (the Division) in Santa Fe, New Mexico on February 11, 2008, and

(b) the Division's records pertinent to your request, including the Division's records in connection with Administrative Order SD-200634.

EnerVest Operating, L.L.C. (EnerVest) has requested an amendment to Administrative Order SD-200634, issued on February 22, 2007 (the previous order), to authorize simultaneous dedication of its proposed Meyer B 28 A Com AC2 Well No. 6 (API No. 30-025-38764) [the proposed well], along with the following existing gas wells (all in Section 28 or Section 33 of Township 20 South, Range 37 East):

Meyer B28 A Com AC2 #2	API No. 30-025-06273	660 FSL & 1980 FEL	O-28
Meyer B28 A Com AC2 #4	API No. 30-025-37961	1980 FSL & 660 FEL	I-28
Meyer B28 A Com AC2 #5	API No. 30-025-38365	660 FNL & 660 FEL	A-33

to an existing, non-standard 360-acre gas spacing unit in Eumont-Yates/Seven Rivers/Queen Gas Pool (76480), consisting of the SE/4 and E/2 SW/4 of Section 28 and the N/2 NE/4 and NE/4

NW/4 of Section 33, Township 20 South, Range 37 East, N.M.P.M., in Lea County, New Mexico.

The proposed well will be drilled at a standard gas well location 1880 feet from the South line and 1980 feet from the East line (Unit J) of Section 28. Division approval of simultaneous dedication is required because Rule 3(C) of the Special Pool Rules for the Eumont Gas Pool, as provided in Order R-8170-P, adopted December 14, 2001, prohibits the dedication of more than one gas well per 160 acres in that pool. Simultaneous dedication of this unit to the three existing gas wells was approved by the previous order.

Your application has been duly filed under the provisions of Division Rules 104.D(3) and 1210.A, and Rule 4(B) of the Special Pool Rules for the Eumont Gas Pool.

It is our understanding that you are seeking simultaneous dedication of this unit to the four wells described for geologic reasons, in order to prevent waste and maximize production from this unit. As required by Rule 4(B) of the applicable pool rules, you have furnished evidence to support your conclusion that the granting of this application will prevent waste and will not impair correlative rights.

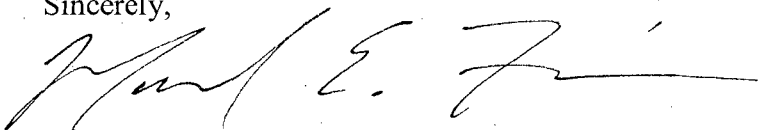

We also understand that you have given due notice of this application to all "affected persons," as defined in Rule 1210.A(2)(a), in all spacing units in the Eumont adjoining the subject unit.

We also note that the previous order incorrectly described the well location of the Meyer B 28 A Com AC2 Well No. 4 as being 560 feet from the North line and 1980 feet from the West line (Unit C) of Section 28. The correct well location is 1980 feet from the South line and 660 feet from the East line (Unit I) of Section 28. The order also incorrectly described the API number for the said well as being 30-025-26899. The correct API number is 30-025-37961. In addition to other relief herein granted, Administrative Order SD-200634 is hereby amended, effective as of February 22, 2007, to reflect the corrected location and API number for the Meyer B 28 A Com AC2 Well No. 4, as stated in this paragraph.

Pursuant to the provisions of Division Rule 104.D(3) and Rule 4(B) of the Special Pool Rules for the Eumont Gas Pool, the above-described simultaneous dedication is hereby approved.

Jurisdiction of this case is retained for the entry of such further orders as the Division may deem necessary.

Sincerely,

A handwritten signature in black ink, appearing to read 'Mark E. Fesmire', with a long horizontal flourish extending to the right.

Mark E. Fesmire, P.E.
Director
