Subject: Notification of environmental drilling activities for Rice Operating Company

Edward,

This note is to supercede the one(s) that I previously sent. (I am having e-mail server difficulties this morning ... and I apologize for stacking your in-box with incomplete messages!)

Please be advised that I plan to supervise environmental drilling activities on Wednesday, April 2nd for Rice Operating Company, as noted below:

Vacuum SWD. E-2 Junction Box. OCD Case Number 1R0425-01. Unit E Sec 2 T18S R 35E. We will be plugging and abandoning the existing down-gradient 2-inch diameter monitor well (as it has sanded) and replacing it with another.

Vacuum SWD. K-35-1 Boot. OCD Case Number 1R0425-03. Unit K Sec 35 T 17S R 35E. We will be installing a 4-inch diameter groundwater recovery and monitor well approx. 35 to 50 ft down-gradient from the former boot.

If you are in the neighborhood you are most welcomed to join us. Otherwise, please call me if you have any questions or need additional information.

Thank you.

Sincerely,

Pete G.
