Re: OCD Discharge Plan # GW-281-----Discharge Plan Renewal GW-281 for
Weatherford U.S., L.P. EDI Services Facility Located at 850 S. Browning
Pkw. Farmington, New Mexico

Dear Mr. Lowe,

The purpose of this letter is to provide the Affidavit of Publication for the Public Notice advertising the Weatherford U.S., L.P. Discharge Plan Renewal (GW-281) for the Weatherford U.S., L.P. Evaluation, Drilling & Intervention Services Facility located at 850 S. Browning Parkway Farmington, New Mexico. Also include please find a copy of the certified letter sent to the property owner, Mr. Chuck Hagen, notifying him of the Public Notice.

Weatherford has appreciated the timely assistance received from NM OCD personnel in preparing this plan and renewal. If there are any questions or comments regarding this plan please contact CB Jacobson at (801) 491-0527.

Sincerely,
Weatherford International, Inc.

NOTA PÚBLICA

Weatherford U.S., L.P. localizó en 515 Post Oak Blvd., Suite 600, Houston, TX. 77027, se han sometido una aplicación de la renovación a la Energía de Nuevo México, los Minerales y el Departamento Natural de Recursos, la División de la Conservación del Petróleo para el plan previamente aprobado de la descarga (GW-281) para su Perforación Controlada de la Presión atienden a la facilidad localizada en el SE/4, NE4 de la Sección 13, Municipio 29 al norte, la Gama 13 al oeste, NMPM, San Condado de Juan, Nuevo México. La dirección de la facilidad es 850 S. Browning Parkway, Farmington, N.M.

La facilidad cuenta con servicios de fishing, unidades de espuma, y alquiler de herramientas para caños y equipos para la exploración y producción de petróleo y gas en el área de Cuatro Esquinas. Los materiales almacenados o generados en la facilidad incluyen aproximadamente 500 galones de diesel, 200 galones/mensual del petróleo utilizado, 6,600 galones/mensual de agua de lavado, y de 650 galones/mensual de todo del sumidero. Todo el desperdicio generado en la facilidad se envía fuera de esta para la disposición en NMOCD, facilidades de disposición aprobadas. Todas sustancias químicas son almacenadas en los contenedores aprobados de DOT y se almacenan en contenedores secundarios aprobados por OCD. Todo desperdicio generado en la facilidad se almacena en recipientes apropiados y estructuras secundarias de contención según aprobado por el OCD.

El agua subterránea mas probable de ser afectada por un derramamiento, un lanzamiento, o una descarga accidental están a una profundidad de aproximadamente 40-45 pies, con una suma de concentración disuelta de sólidos de aproximadamente menos de 1000-2000 mg/L.

Alguna persona o personas interesadas pueden obtener información, someter comentarios o pedir ser colocados en una lista de envío de facilidad específica para futuros avisos contactando al Sr. Leonard Lowe en el Nuevo México OCD en 1220 S. del sur: Francis Mancija, Santa Fe, Nuevo México 87505, el Teléfono (505) 476-3492. El OCD aceptará los comentarios y las declaraciones de interés con respecto a la renovación y creará una lista de envío facilidad-especifica para personas desean recibir estos avisos en un futuro.

PUBLIC NOTICE

Weatherford U.S., L.P. located at 515 Post Oak Boulevard, Suite 600, Houston, TX 77027, has submitted a renewal application to the New Mexico Energy, Minerals and Natural Resources Department, Oil Conservation Division for the previously approved discharge plan (GW-281) for their Evaluation, Drilling & Intervention Services facility located in the SE/4, SW/4 of Section 13, Township 29 North, Range 13 West, NMPM, San Juan County, New Mexico. The address for the facility is 850 S. Browning Parkway, Farmington, N.M.

The facility provides fishing services, foaming units, and rentals of oilfield tools pipe and equipment for the exploration and production of oil and natural gas in the Four Corners area. Materials stored or generated at the facility include approximately 500 gallons of diesel, 200 gallons/month of used oil, 6,600 gallons/month of wash water, and 650 gallons/month of sump sludge. All wastes generated at the facility are sent off site for disposal at NMOCD approved disposal facilities. All chemicals are stored in DOT approved containers and are stored in OCD approved secondary containments. All wastes generated at the facility are stored in appropriate containers and secondary containment structures as approved by the OCD.

Groundwater most likely to be affected by a spill, release, or accidental discharge is at a depth of approximately 40-45 feet, with a total dissolved solids concentration of approximately 1000-2000 mg/L.

Any interested person or persons may obtain information, submit comments or request to be placed on a facility-specific mailing list for future notices by contacting Leonard Lowe at the New Mexico OCD at 1220 South St. Francis Drive, Santa Fe, New Mexico 87505, Telephone (505) 476-3492. The OCD will accept comments and statements of interest regarding the renewal and will create a facility-specific mailing list for persons who wish to receive future notices.

RE: Property Owner Notification for Weatherford U.S.,L.P NMOCD Discharge Permit Renewal (GW-281) for the Facilities Located at 850 S. Browning Parkway Farmington, NM

Dear Sir,

Weatherford Evaluation, Drilling & Intervention Services is in the process of renewing their NMOCD Discharge Plan (GW-281) for the facility located at 850 S. Browning Parkway, Farmington, NM. As part of the renewal process Weatherford is required to publish a public notice in the local news paper and send a copy of the notice to the property owner. The purpose of this certified letter is to satisfy the property owner notification as required in the plan renewal process. Please find the included Affidavit of Publication with copy of the published Public Notice. If you have any questions regarding this notice please contact me, CB Jacobson at (801)491-0527 or 735 E 1400 N Mapleton, UT. 84664.

Sincerely,

NOTICE OF PUBLICATION

STATE OF NEW MEXICO
ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT
OIL CONSERVATION DIVISION

Notice is hereby given that pursuant to New Mexico Water Quality Control Commission Regulations (20.6.2.3106 NMAC), the following discharge permit application(s) has been submitted to the Director of the New Mexico Oil Conservation Division ("NMOCD"), 1220 S. Saint Francis Drive, Santa Fe, New Mexico 87505, Telephone (505) 476-3440:

(GW-281) Weatherford U.S., L.P., 515 Post Oak Boulevard, Suite 600, Houston, TX 77027, has submitted a renewal application for their previously approved discharge plan permit for their Fishing and Rental Oil and Gas Service Company, 850 S. Browning Park way, Farmington, N.M., located in the SE/4, SW/4 of Section 13, Township 29 North, Range 13 West, NMPM, San Juan County, New Mexico. The facility provides down hole wire line service, fishing services and rentals of oilfield tools, pipe and equipment for the exploration of oil and natural gas. Approximately 500 gallons of diesel, 6,600 gallons/month of wash water, 650 gallons/month of sump sludge and 200 gallons/month of used oil will be stored and generated on site. Fluids shall be placed in approved containers and properly stored within secondary containment. All waste streams shall be manifested accordingly. Groundwater most likely to be affected by a spill, leak or accidental discharge is at a depth of approximately 40 - 45 feet, with a total dissolved solids concentration of approximately 1000 - 2000 mg/L. The discharge plan addresses how oilfield products and waste will be properly handled, stored, and disposed of, including how spills, leaks, and other accidental discharges to the surface will be managed in order to protect fresh water.

(GW-347) Weatherford U.S., L.P., 515 Post Oak Boulevard, Suite 600, Houston, TX 77027, has submitted a renewal application for their previously approved discharge plan permit for their Completion Gas and Oil Service Company, 514 East Animas Street, Farmington, N.M., located in the SE/4 NW/4 of Section 15, Township 29 North, Range 13 West, NMPM, San Juan County, New Mexico. The facility provides downhole packers and other completion tools to the oil production industry. Approximately 120 gallons/day of wash water, 2 gallons/day of waste oil, 220 gallons/year of sump wash and a variety of paint cans and lubricant oils will be used, generated and stored on site. Fluids shall be placed in approved containers and properly stored within secondary containment. All waste streams shall be manifested accordingly. Groundwater most likely to be affected by a spill, leak or accidental discharge is at a depth of approximately 20 - 30 feet, with a total dissolved solids concentration of approximately 600 - 0900 mg/L. The discharge plan addresses how oilfield products and waste will be properly handled, stored, and disposed of, including how spills, leaks, and other accidental discharges to the surface will be managed in order to protect fresh water.

The NMOCD has determined that the application is administratively complete and has prepared a draft permit. The NMOCD will accept comments and statements of interest regarding this application and will create a facility-specific mailing list for persons who wish to receive future notices. Persons interested in obtaining further information, submitting comments or requesting to be on a facility-specific mailing list for future notices may contact the Environmental Bureau Chief of the Oil Conservation Division at the address given above. The administrative completeness determination and draft permit may be viewed at the above address between 8:00 a.m. and 4:00 p.m. Monday through Friday, or may also be viewed at the NMOCD web site <http://www.emnrd.state.nm.us/ocd/>. Persons interested in obtaining a copy of the application and draft permit may contact the NMOCD at the address given above. Prior to ruling on any proposed discharge permit or major modification, the Director shall allow a period of at least thirty (30) days after the date of publication of this notice, during which interested persons may submit comments, or request that NMOCD hold a public hearing. Requests for a public hearing shall set forth the reasons why a hearing should be held. A hearing will be held if the Director determines that there is significant public interest.

PUBLIC NOTICE

Weatherford U.S., L.P. located at 515 Post Oak Boulevard, Suite 600, Houston, TX 77027, has submitted a renewal application to the New Mexico Energy, Minerals and Natural Resources Department, Oil Conservation Division for the previously approved discharge plan (GW-281) for their Evaluation, Drilling & Intervention Services facility located in the SE/4, SW/4 of Section 13, Township 29 North, Range 13 West, NMPM, San Juan County, New Mexico. The address for the facility is 850 S. Browning Parkway, Farmington, N.M.

The facility provides fishing services, foaming units, and rentals of oilfield tools pipe and equipment for the exploration and production of oil and natural gas in the Four Corners area. Materials stored or generated at the facility include approximately 500 gallons of diesel, 200 gallons/month of used oil, 6,600 gallons/month of wash water, and 650 gallons/month of sump sludge. All wastes generated at the facility are sent off site for disposal at NMOCD approved disposal facilities. All chemicals are stored in DOT approved containers and are stored in OCD approved secondary containments. All wastes generated at the facility are stored in appropriate containers and secondary containment structures as approved by the OCD.

Groundwater most likely to be affected by a spill, release, or accidental discharge is at a depth of approximately 40-45 feet, with a total dissolved solids concentration of approximately 1000-2000 mg/l.

Any interested person or persons may obtain information, submit comments or request to be placed on a facility-specific mailing list for future notices by contacting Leonard Lowe at the New Mexico OCD at 1220 South St. Francis Drive, Santa Fe, New Mexico 87505, Telephone (505) 476-3492. The OCD will accept comments and statements of interest regarding the renewal and will create a facility-specific mailing list for persons who wish to receive future notices.

APPROVED 04/18/08 Lowe
