Release Notification and Corrective Action

OPERATOR

☒ Initial Report ☒ Final Report

Name of Company	Saber Resources, Inc.	Contact	Doug Keathley
Address	400 W. Illinois, Suite 950, Midland, TX 79701	Telephone No.	(432) 685-0169
Facility Name	Glad State #1	Facility Type	Tank Battery
Surface Owner	Brad Harris	Mineral Owner	Fee Lease - Various Owners
		API No.	30-025-07125

LOCATION OF RELEASE

Unit Letter	Section	Township	Range	Feet from the	North/South Line	Feet from the	East/West Line	County
E	32	11S	38E	2310	North	330	West	Lea

Latitude N 33.32315° Longitude W 103.12699°

NATURE OF RELEASE

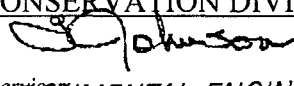

Type of Release	Oil	Volume of Release	Unknown	Volume Recovered	None
Source of Release	Oil Storage Tank	Date and Hour of Occurrence	7/10/07 - AM	Date and Hour of Discovery	7/10/07 - AM
Was Immediate Notice Given?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom?	RECEIVED		
By Whom?		Date and Hour			
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse	MAY 1 4 2008		
If a Watercourse was Impacted, Describe Fully.*			HOBBS OCL		

Describe Cause of Problem and Remedial Action Taken.*

Oil tank overflowed. Spill was primarily contained within the firewall. Impacted soil was excavated from the current spill area, as well as historical spill areas, and blended on-site to reduce TPH concentrations to less than 100 mg/kg.

Describe Area Affected and Cleanup Action Taken.* ☐ An area approximately 74' x 50' within the battery and well pad area, and an area approximately 15' x 268' off the well pad to the south of the site was affected by the current spill. Soil was excavated from the current spill area and additional, historical spill areas on the south and east portions of the wellpad, and south and east of the fenced area until final confirmation samples reported chloride concentrations less than 250 mg/kg and TPH concentrations less than 100 mg/kg. All excavated soil was blended on-site until chloride concentrations reported less than 250 mg/kg and TPH concentrations reported less than 100 mg/kg. The blended soil was used to backfill the excavated areas to surface grade. The area outside the wellpad will be re-seeded. Depth to groundwater is at approximately 25' bgs.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

PLEASE NOTE. **Liability and Damages.** Cardinal's liability and client's exclusive remedy for any claim arising, whether based in contract or tort, shall be limited to the amount paid by client for analyses. All claims, including those for negligence and any other cause whatsoever shall be deemed waived unless made in writing and received by Cardinal within thirty (30) days after completion of the applicable service. In no event shall Cardinal be liable for incidental or consequential damages, including, without limitation, business interruptions, loss of use, or loss of profits incurred by client, its subsidiaries, affiliates or successors arising out of or related to the performance of services hereunder by Cardinal, regardless of whether such claim is based upon any of the above-stated reasons or otherwise. Results relate only to the samples identified above. This report shall not be reproduced except in full with written approval of Cardinal Laboratories.

PLEASE NOTE: Liability and Damages. Cardinal's liability and client's exclusive remedy for any claim arising, whether based in contract or tort, shall be limited to the amount paid by client for analyses. All claims, including those for negligence and any other cause whatsoever shall be deemed waived unless made in writing and received by Cardinal within thirty (30) days after completion of the applicable service. In no event shall Cardinal be liable for incidental or consequential damages, including, without limitation, business interruptions, loss of use, or loss of profits incurred by client, its subsidiaries, affiliates or successors arising out of or related to the performance of services hereunder by Cardinal, regardless of whether such claim is based upon any of the above-stated reasons or otherwise. Results relate only to the samples identified above. This report shall not be reproduced except in full with written approval of Cardinal Laboratories.
