Attention: Mr. Mark E. Fesmire, P.E.  
Director

Re: Application for Increased Well Density & Simultaneous Dedication  
Jalmat (Tansil-Yates-Seven Rivers) Gas Pool ("Jalmat Gas Pool")

Dear Mr. Fesmire:

By Division Order No. R-5948 dated March 16, 1979 the Division approved a 160-acre non-standard gas spacing and proration unit ("GPU") in the Jalmat Gas Pool comprising the SE/4 of Section 31, Township 24 South, Range 37 East, NMPM, Lea County, New Mexico. This unit was dedicated to the Getty Oil Company J. W. Sherrell Well No. 9 (API No. 30-025-26070) located at an unorthodox gas well location, also approved by that order, 2250 feet from the South line and 1650 feet from the East line (Unit J) of Section 31.

API 30-025-38882

EnerVest Operating, L.L.C. ("EnerVest"), the current operator of the subject GPU, hereby requests approval:

- a) to drill an additional infill gas well within the subject GPU. EnerVest proposes to drill the J. W. Sherrell Well No. 12 at a standard gas well location 660 feet from the South line and 1815 feet from the East line (Unit O) of Section 31; and
- b) to simultaneous dedicate the existing J. W. Sherrell No. 9 and the proposed J. W. Sherrell No. 12 to the subject GPU.

The wells and GPU are located within the Jalmat Gas Pool. This pool is currently governed by special pool rules established by Order No. 8170-P effective December 14, 2001. Well location requirements and well density provisions are contained within Rule No. (3) of the special pool rules.

In support of the application, EnerVest states the following:

The existing J. W. Sherrell No. 9 is currently marginally productive. During 2007 the J. W. Sherrell No. 9 produced at an average rate of approximately 60 MCF of gas per day;

Recent drilling in this area by EnerVest and other operators has demonstrated that there is little or no interference between gas wells spaced on 40 acres within the Jalmat Gas Pool. Consequently, EnerVest believes that the drilling of the proposed J. W. Sherrell No. 12 is necessary in order to effectively and efficiently drain the gas reserves from the Jalmat Gas Pool within the SW/4 SE/4 of Section 31;

Due to inefficient drainage and the marginally productive nature of the existing well, EnerVest believes that no offset operator will be adversely affected by the approval of this application;

Attachment No. 1 is a plat that identifies the subject GPU, and the wells that are to be simultaneously dedicated to this unit;

Attachment No. 2 is a plat that identifies the subject GPU and all offsetting GPU's in the Jalmat Gas Pool. As shown on Attachment No. 2, there are four offsetting GPU's that are operated by EnerVest. **Please be advised that EnerVest owns 100% of the working interest in these four offsetting GPU's. Consequently, there are no additional working interest owners to notify.**

Attachment No. 2A is a compilation of all active Jalmat Gas Pool producing wells within the offsetting GPU's;

Notice of this application has been provided to Lewis B. Burleson, Inc., and Herman L. Loeb.

~~A copy of the notice letter that has been sent to all parties is enclosed, as is Attachment No. 3, which is a list of the parties to whom notice has been provided.~~ Upon obtaining the signed return receipt cards, they will be forwarded to the Oil Conservation Division.

Also enclosed is a copy of Order No. R-5948 and a Form C-102 for the proposed J. W. Sherrell No. 12.

In summary, EnerVest Operating, L.L.C. believes that approval of the application is in the best interest of conservation, prevention of waste and protection of correlative rights.

If you should have any questions, please call me at (713) 495-6530 or E-Mail me at RYOUNG@ENERVEST.NET.

IN THE MATTER OF THE HEARING  
CALLED BY THE OIL CONSERVATION  
DIVISION FOR THE PURPOSE OF  
CONSIDERING:

CASE NO. 6465  
Order No. R-5948

APPLICATION OF GETTY OIL COMPANY  
FOR AN UNORTHODOX WELL LOCATION  
AND A NON-STANDARD PRORATION UNIT,  
LEA COUNTY, NEW MEXICO.

ORDER OF THE DIVISION

BY THE DIVISION:

This cause came on for hearing at 9 a.m. on February 28, 1979, at Santa Fe, New Mexico, before Examiner Richard L. Stamets.

NOW, on this 16th day of March, 1979, the Division Director, having considered the testimony, the record, and the recommendations of the Examiner, and being fully advised in the premises,

FINDS:

(1) That due public notice having been given as required by law, the Division has jurisdiction of this cause and the subject matter thereof.

(2) That the applicant, Getty Oil Company, seeks approval of a 160-acre non-standard gas proration unit comprising the SE/4 of Section 31, Township 24 South, Range 37 East, NMPM, to be dedicated to its J. W. Sherrell Well No. 9, situated at an unorthodox gas well location 2250 feet from the South line and 1650 feet from the East line of said Section 31.

(3) That the entire non-standard proration unit may reasonably be presumed productive of gas from the Jalmat Gas Pool and that the entire non-standard gas proration unit can be efficiently and economically drained and developed by the aforesaid well.

-2-

Case No. 6465

Order No. R-5948

(4) That the unorthodox location resulted from the completion as a gas well of a well projected as an oil well at a standard oil well location.

(5) That no offset operator objected to the proposed unorthodox location.

(6) That approval of the subject application will afford the applicant the opportunity to produce his just and equitable share of the gas in the Jalmat Gas Pool, will prevent the economic loss caused by the drilling of unnecessary wells, avoid the augmentation of risk arising from the drilling of an excessive number of wells, and will otherwise prevent waste and protect correlative rights.

IT IS THEREFORE ORDERED:

(1) That Getty Oil Company is hereby granted a 160-acre non-standard gas proration unit in the Jalmat Gas Pool comprising the SE/4 of Section 31, Township 24 South, Range 37 East, NMPM, Lea County, New Mexico, which unit is hereby dedicated to its J. W. Sherrell Well No. 9 located 2250 feet from the South line and 1650 feet from the East line of said Section 31, an unorthodox gas well location also hereby approved.

(2) That jurisdiction of this cause is retained for the entry of such further orders as the Division may deem necessary.

DONE at Santa Fe, New Mexico, on the day and year hereinabove designated.
