Subject: BD SWD K-27 North and BD SWD K-27-1 (#1R426-02 and #1R426-03) Closure Report - Additional Information Required

Dear Mr. Conder:

The New Mexico Oil Conservation Division (NMOCD) has reviewed the submitted Closure Report, dated March 10, 2008, BD SWD K-27 Junction Boxes Site submitted by Arcadis on 3/25/2008 (#1R426-02 and #1R426-03). The NMOCD cannot approve the Closure Report at this time. The NMOCD is requiring additional information regarding this site. Please provide an estimation of the chloride mass that has contaminated the groundwater by the release at the former BD SWD K-27 North and BD SWD K-27-1 junction boxes and a plan for the removal of that chloride mass from the groundwater. An existing groundwater monitoring well(s) may be used for this purpose. Also, please propose a treatment and / or disposal method for that chloride mass.

Please submit the required additional information to the NMOCD by Thursday, July 24, 2008.

If you have questions regarding this matter, please contact me at 505-476-3489.

Edward J. Hansen
Hydrologist
Environmental Bureau

P.S.: Please use the NMOCD case # on future correspondence regarding the site listed above.
