Latitude 32.54604 Longitude 104.07338

NATURE OF RELEASE

Type of Release Produced Water	Volume of Release 10 bbls Produced Water	Volume Recovered 8 bbls PW.
Source of Release Stock tank	Date and Hour of Occurrence 5/31/2008 8:00am	Date and Hour of Discovery same
Was Immediate Notice Given? Yes No X Not Required	If YES, To Whom?	
By Whom?	Date and Hour	
Was a Watercourse Reached? <input type="checkbox"/> Yes X No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*
The pumper left a valve shut on the water pump.

Describe Area Affected and Cleanup Action Taken.*
The impacted area was the bermed area of the tank battery. Soil samples will be taken for analytical from the impacted area in the bermed area. Soil samples will be sent to a second party lab & analysis ran for Chlorides. When analytical results are received from the initial soil samples taken, the Chlorides will be evaluated and proper action taken. A final C-141 form will be submitted to the OCD requesting closure for the release that occurred on 5/31/2008.
Depth to ground water 50' - 100', Wellhead protection area > 1000', Distance to surface water body > 1000' Site ranking 10.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Mike,

This office is in receipt of your Initial Report C-141 on the produced water release at this facility. Included on the C-141 is a sampling plan and as warranted, a work plan may be submitted.

The Initial Report C-141 is approved with the following conditions:

- Due to the site ranking of 10, in addition to the planned analytical for chlorides, soil analyses for BTEX and TPH will be required.
- Please notify OCD 48 hours prior to obtaining samples where analyses are to be presented to OCD.
- As warranted per soil analyticals, within 30 days, on or before **August 11, 2008** completion of a remediation work plan should be finalized and submitted to the Division summarizing all actions taken and/or to be taken to mitigate environmental damage related to the leak, spill, or release for approval. The plan must include general site characteristics, site ranking score, soil remediation action levels, soil remediation method, and planned analytical testing for TPH, BTEX, Chlorides or any constituent of concern as applicable. Please use the "Guidelines for Remediation of Leaks, Spills, and Releases" as your guide. This document may be found at the following link: http://www.emnrd.state.nm.us/ocd/documents/7C_spill1.pdf
- Remediation actions to be completed and Final C-141 submitted with confirmation analyses/documentation on or before **September 9, 2008**. Remediation requirements may be subject to other federal, state, and local laws or regulations.

Please be advised that NMOCD acceptance and/or approval of documents or work plans does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance and/or approval of documents or work plans do not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If I may be of further assistance in this matter or should you have any questions, please feel free to contact me.

Respectfully,
Sherry Bonham
