Attn.: Mr. William J. LeMay -- Director

Gentlemen:

Chevron U.S.A. Inc. respectfully requests your approval of this administrative application for Non-Standard Gas Well Location and Simultaneous Dedication in the Eumont Yates 7 Rvrs Qn (Pro Gas) Pool.

Chevron will complete the **Theodore Anderson #4** (to be renamed the Theodore Anderson Com #13) in the Eumont Yates 7 Rvrs Qn (Pro Gas) Pool. It is currently a shut-in Tubb well. We are requesting a NMOCD approval for a Non-Standard Gas well location. It is also our desire to simultaneously dedicate the 160-acre Eumont Gas Proration Unit currently assigned to our Theodore Anderson #1 [Administrative Order NSP-171] to both wells. The 160-acre gas proration unit comprises the SE/4 of Section 8, T-20-S, R-37-E, Lea County, New Mexico. As the Theodore Anderson #1 is producing at a current rate of 200 MCF/D, the re-completion of Well #4 will essentially capture reserves which otherwise would not be produced from this GPU.

Chevron respectfully requests your approval of this administrative application for Non-Standard Gas well location and Simultaneous Dedication. Attached is a vicinity map and Form C-102 plats.

If you have any questions or require any further information concerning this application, please contact me at (915) 687-7347.

Yours very truly,

J. H. Saenz  
Petroleum Engineer
