**RE: 2007 Annual Groundwater Monitoring Report for the Marathon's
Former Bertha Barber Tank Battery Release Site
Section 5, T20S, R37E, Lea County, New Mexico
Abatement Plan (AP-11) Termination**

Dear Mr. Peacock:

The New Mexico Oil Conservation Division (OCD) has received Marathon's report and request to close the above-referenced site (dated May, 2008). The report is acceptable to the OCD. However, the material used to plug the groundwater monitoring wells must be a cement grout with 1% to 3% bentonite. Please submit to the OCD a final plugging report within 60 days of receipt of this letter.

The above-referenced report, submitted in accordance with Rule 19.K, indicates that Marathon has met the requirements of Rule 19.B; therefore, the OCD approves the report and hereby notifies you that the abatement plan (AP-11) is terminated in accordance with Rule 19.K.(2).

Please be advised that OCD approval of this report does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.
