OCD CASE NO. 1R493

Mr. Pride:

The Oil Conservation Division (OCD) has reviewed the remediation plan submitted on behalf of Pride Energy by R.T. Hicks Consultants, Ltd. on September 3, 2008, in response to OCD's Letter of Violation dated August 15, 2008. OCD hereby approves Pride's remediation plantos excavate and dispose of drilling wastes from the INBE 13 #1 burial trench with the following conditions. In addition to the work generally described in that document, OCD requires the R 277.1 following:

- Pride must collect a sufficient number of soil samples to provide representatives. 0 concentrations of potential contaminants and their distribution. Pride must take at least two samples from both the west and east sidewalls, at least one sample from both the north and south sidewalls, and at least two samples from the excavation bottom. In addition, Pride must also sample any areas that show obvious signs of contamination or wetness.
- Pride must analyze all soil samples for benzene and total BTEX using EPA SW-846 method 8021B or 8260B, TPH using EPA method 418.1, GRO and DRO combined fraction using EPA SW-846 method 8015M, and chlorides using EPA method 300.1.
- Pride must install the proposed monitoring well so that the screened interval spans the water table with at least 5 feet of screen above the water table and with no more than 15

Matt Pride Pride Energy INBE 13 #1 Excavation (1R-493) March 9, 2009

Sincerely,

feet of total screen. Pride must properly develop the well and must allow a minimum of 24 hours to elapse between development and sampling. Were winning 480.4897 TEPOPE-14

Pride must gather a depth-to-water measurement immediately prior to sampling and the ground water sample must be analyzed for benzene and total BTEX using EPA SW-846 method 8021B or 8260B, GRO and DRO combined fraction using EPA SW-846 method 8015M, and chlorides using EPA method 300.1.

PRESS OF THE PRESS

Pride must submit a written report to OCD within 10 days of completing its removal and disposal of the burial trench's contents, backfilling, and covering of the burial trench. Pride's report must include a map depicting the locations of the soil samples and the monitor well with the analytical data posted, a description of all soil and ground water at 4 investigation and monitoring activities, photos, an as-built well diagram, chain of custodies, analytical results, and waste disposal manifests. THE BUT MEDIC

1885 1 C 3

Pride must also comply with all of OCD's previous directives and should begin its efforts within 30 days of its receipt of the letter. Pride must contact OCD at least 72 hours before beginning its activities. OCD's approval of this remediation plan does not relieve Pride Energy of any responsibility if remaining contaminated soils result in the contamination of surface water, ground water, or the environment. Please contact Mr. Jim Griswold at 505-476-3465 if you have any questions. CARLONN V. MILLINGS AND
