RE: Administrative Approval of Unorthodox Location
San Juan 32-5 Unit #12A Well
685' FSL, 620' FEL
Section 24, T32N-R6W
Mesa Verde
Rio Arriba County, New Mexico

Dear Mr. Stogner:

Energen Resources Corporation requests administrative approval for an unorthodox location of its San Juan 32-5 Unit #12A well under the provisions of NMOCD Order Number R-10987A.

A standard location is not possible due to steep terrain, the proliferation of cultural artifacts, and an archaeological site. The well pad and access road were relocated to avoid encroachment on the site, as set out in the attached archaeological survey.

Even though the proposed location is within a Federal Exploratory Unit and there is a proration unit to the east of our proposed well, the distance to the outer boundary of the Federal Unit on the east is still less than half (1/2) a mile. The spacing unit to the east includes all of Section 19, T32N-R6W, which is less than 1,428' wide.

A copy of this application is being submitted to all offset operators by certified mail with a request that they furnish your office in Santa Fe with a Waiver of Objection.

Attached is a well location plat showing acreage, a topographic plat of the area, and a map showing all offsetting operators.

Sincerely,

Richard P. Corcoran (TM)
