Application for Non-Standard Subject:

Gas Proration Unit for

Southern California Petroleum Corp. Van Zandt well No. 4
SW NE NE Section 25, T24S, R36E

Jalmat Gas Pool

Lea County, New Mexico

## Gentlemen:

By this application, Southern California Petroleum Corporation respectfully requests administrative approval for a Non-Standard Gas Proration Unit under Rule 8, Order 640 and Rule 3, Order 520.

- Acreage involved  $SW_{\overline{h}}^{\frac{1}{2}}$  NE $\frac{1}{4}$ , Section 25, T24S, R36E, Lea County, New Mexico (40 acres).
- Well involved Van Zandt Lease, well No. 4, located 1650 feet from the north line and 1650 feet from the east line of Section 25, T24S, R36E, Lea County, New Mexico.
- The well is now producing from the horizontal and vertical limits of the Jalmat Pool, as defined by Order 640 with a gas-oil ratio of 149,667 to 1, which automatically classifies it as a gas well.
- As outlined by a letter from Mr. A. L. Porter, Jr. dated October 4, 1955, we request that this well be removed from the oil proration schedule and subsequently granted a 40-acre gas allowable in the Jalmat Gas Pool. The granting of this application will not affect adversely any offset operator but will protect the correlative rights of the undersigned.
- A plat is hereby attached to this application showing (a) acreage to be dedicated, (b) well location, (c) offset ownership.
- By copy of this application, sent by registered mail, all offset operators as listed below have been notified.

Re: Classification of Van Zandt #4

Gentlemen:

The latest Gas-Oil Ratio report submitted for your Van Zandt #4 in the Jalmat pool shows a Gas-Oil Ratio of 149,667-1, which automatically classifies it as a gas well. It will therefore be necessary for you to file the necessary gas plats showing the acreage which you intend to dedicate to this well, and make an application to the Oil Conservation Commission at Santa Fe for a non-standard gas proration unit. This well will be removed from the oil proration schedule not later than November 30th, or as soon as we are notified that you NSP order has been approved. Under the provisions of Order No. R-640. the maximum acreage which can be dedicated to the above well is 40 acres.

Yours very truly.

OIL CONSERVATION COMMISSION
