Oil Conservation Division  
Attn: Will Jones  
1220 South St. Francis Dr.  
Santa Fe, NM 87505

Dear Mr. Jones:

Mack Energy Corporation respectfully requests an amendment to SWD-1175, for the Runway SWD #1 Sec. 20 T14S R29E as a Devonian disposal. This well was permitted to drill to a TD of 10,750' and run 5 ½ casing and cement to surface. We have lost circulation at +- 10,500' and have been unable to regain circulation and currently TD @ 10,650'. We now are proposing to set 5 ½ casing @ 10,170' (base of Mississippian Lime) w/packer and DV Tool. There will also be a DV Tool @ 7300'. Cement will be two stages, 1<sup>st</sup> from 10,170'-7300', 2<sup>nd</sup> from 7300'-surface. This SWD will now be open hole disposal from **Mississippian Lime through Devonian at a depth of 10,170'-10,650'.**

Thank you for your assistance in this matter. If you have any questions, please feel free to call.

Sincerely,  
MACK ENERGY CORPORATION

Jerry W. Sherrell  
Production Clerk

Gentlemen:

Enclosed for your review, is a copy of Mack Energy Corporation's amended application for a Mississippian Lime through Devonian SWD well. Produced water will be injected at a proposed depth of 10,170-10,650'. The Runway SWD #1, located 660 FNL & 1980 FEL, Sec. 20, T14S R29E, Chaves County.

This letter will serve as a notice that Mack Energy Corporation has requested administrative approval from the NMOCD to amend this disposal permit. If you have any objections, you must notify the Oil Conservation Division in Santa Fe in writing at 1220 South St. Francis Drive, Santa Fe, NM 87505 within fifteen (15) days of receiving this letter. I have attached a waiver to this letter, requesting signature to approve this amendment. If you would please sign and return, in order to expedite approval.

Sincerely,

MACK ENERGY CORPORATION
