**Subject:** FW: Rosa Unit #360A

Mr. Brooks,

Please read Ms. Sharp's email below. What would be the best way to handle correcting the API number on the NSL Order?

Thank you,

Heather Riley

When we approved the C-104 for this well back in 2008, you furnished me with order # NSL-5869 for the well. Well name and number and surface location all matched in the order for well #360A; however, the API is not the current number assigned to this well. Please contact Santa Fe personnel (David Brooks) to determine what needs to be done to amend the API number. Number currently reflected is 30-039-29777; should be 30-039-30556. The 30-039-29777 was the first API issued to this well, but it was cancelled. When you resubmitted your APD, it was assigned the new API number.

Thank you.
