Dear Mr. Brooks:

Premier Oil & Gas, Inc. requests approval for the Dale H. Parke A Tr 1 #38 unorthodox location described above. The well is unorthodox because there is an existing shallow well at the surface location and a Chevron buried pipeline to the south. The well will be completed in the Loco Hills;Glorietta-Yeso formation. This location was deemed the best alternative to the original location. This well is in the SW/SE and is unorthodox to the NW/SE and NE/SW of Section 15 T17S R30E. It is only 50' feet unorthodox putting it 280' feet off of the affected proration units.

Notice will be given to the operators in the Loco Hills;Glorietta-Yeso formation. Premier Oil & Gas, Inc. is the operator of the affected proration NE/SW. COG Operating LLC is the operator of the NW/SE proration unit. COG Operating LLC will be notified with by mail with a Certified Return Receipt and also be notified by fax. Enclosed is a copy of form C-102 showing the location and proposed proration unit along with a copy of a letter giving notification to COG Operating LLC. Also, enclosed is a map showing affected spacing unit(s).

Thank you for your help in this matter.

Sincerely,  
  
Rosalie Jones
