RE: Application of John H. Hendrix Corporation for
Approval of a Non-Standard Location
Cossatot L Well No. 1 Re-completion and Down Hole Commingle
Wantz Abo and Wantz Granite Wash Pools
470' FSL and 2350' FWL
Section 11, T22S, R37E, NMPM, Lea County, NM

Dear Mr. Brooks:

John H. Hendrix Corporation (JHHC) seeks administrative approval to amend Administrative Order NSL-711-0 for the non-standard oil well location for its Cossatot L Well No. 1 at a location 470 feet from the South line and 2350 feet from the West line of Section 11, Township 22 South, Range 37 East, NMPM, Lea County, New Mexico.

The Cossatot L Well No.1 was spudded April 24, 1975 and completed in the Wantz Granite Wash Pool at a non-standard well location. A non-standard well location was requested due to the location of New Mexico State Highway 18, overhead utility lines and other producing wells. This non-standard location for the Wantz Granite Wash completion was approved May 12, 1975 under Administrative Order NSL-711-0. (Exhibit A)

JHHC seeks to recomplate the Cossatot L Well No. 1 in the Wantz Abo Pool (62700) and down hole comingle with the Wantz Granite Wash Pool (62730). All mineral and working interests are the same for both Pools in this 40 acre tract.

Exhibit B is a map which shows the well on the Cossatot L Lease.
Exhibit C is the original survey plat.
Exhibit D is a current C-102

Exhibit E lists the offset operators affected by this application. A copy of this application has been sent to the affected parties by certified mail – return receipt requested – advising them that if they have an objection to this application, it must be filed in writing with the Division's Santa Fe Office within twenty days from the date this notice was sent.

Exhibit F is a plat indicting offset operators.

Exhibit G is a copy of the returned certified mail-return receipts.

Your attention to this matter is greatly appreciated.

Very truly yours,

Lea County, New Mexico

Gentlemen:

This is to request administrative approval of the above-described unorthodox location for my Cossatot "L" Well No. 1. Due to topographical condition existing on this 40-acre tract, your approval will permit us to get the well drilled in a timely manner. New Mexico State Highway 18 crosses this 40 acres running in a north-east to southwest direction. The highway right-of-way fence comes within about 25' of the existing John Hendrix - Thomas Long well No. 1 located 330' FSL and 2310' FWL of Section 11. On the west side of the highway there are above ground utility lines and Shell Oil Company's Thomas Long Well No. 4.

Your early consideration of this application will be appreciated.

Yours very truly,
