## **ADMINISTRATIVE ORDER DHC-3139**

Amerada Hess Corporation  
P.O. Box 840  
Seminole, Texas 79360

Attention: Mr. Chad McGehee

*Fred Turner Jr. "A" Well No. 13  
API No. 30-025-07809  
Unit A, Section 19, Township 20 South, Range 38 East, NMPM,  
Lea County, New Mexico  
Undesignated Blinbry Oil & Gas (Oil - 06660), and  
Undesignated West Nadine-Tubb (Oil - 47530) Pools*

Dear Mr. McGehee:

Reference is made to your recent application for an exception to Rule 303.A. of the Division Rules and Regulations to permit the above described well to commingle production from the subject pools in the well bore.

It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Rule 303.C., and that reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above and any Division Order which authorized the dual completion and required separation of the zones is hereby placed in abeyance.

In accordance with the provisions of Rule 303.C.(1), each of the commingled oil pools shall be allowed to produce up to the top oil allowable and top casing head gas allowable applicable for that pool.

The applicant shall consult with the supervisor of the Division's Hobbs District Office upon completion of the well in order to determine a proper allocation of production from each of the commingled pools. Upon approval of the allocation formula by the Hobbs District Office, the applicant shall provide a copy of the allocation to the Santa Fe Office of the Division.

REMARKS: The operator shall notify the Hobbs District Office of the Division upon implementation of commingling operations.

Pursuant to Rule 303.C.(2), the commingling authority granted herein may be rescinded by the Division Director if conservation is not being best served by such commingling.

Approved at Santa Fe, New Mexico on this 14th day of April, 2003.
