RE: ADMINISTRATIVE APPROVAL OF UNORTHODOX LOCATION
JICARILLA 96 #5C
660' FSL & 2,600' FWL
SECTION 11-T26N-R3W
RIO ARRIBA COUNTY, NEW MEXICO

(30-039-27311)

Dear Mr. Stogner:

Energen Resources Corporation (Energen) hereby requests Administrative Approval for an Unorthodox Location of its proposed Jicarilla 96 #5C Mesaverde well under the provisions of New Mexico Oil Conservation Division (NMOCD) Order R-10987 as amended.

The proposed well is to be located 660' FSL & 2,600' FWL of Section 11-T26N-R3W, Rio Arriba County, New Mexico and dedicated to a standard 320 acre gas proration unit consisting of the W/2 of said Section 11, in the Blanco Mesaverde gas pool.

This will be the fourth Mesaverde well to be drilled in the W/2 of Section 11-T26N-R3W with the first three wells being:

- The Jicarilla 96 #5 (API #30-039-06534) located 990' FSL and 990' FWL of Section 11-T26N-R2W, was drilled to a total depth of 6050', completed on August 28, 1957 as a Mesaverde/Pictured Cliffs well and has produced 30,270 barrels of oil and 2,733,000 MCF/G through September 2002.
- The Jicarilla 96 #5A (API #30-039-21238) located 1190' FSL and 790' FWL of Section 11-T26N-R2W was drilled to a total depth of 6000', completed on October 13, 1976 as a Mesaverde well and has produced 17,188 barrels of oil and 1,277,668 MCF/G through September 2002.
- The Jicarilla 96 #5B (API #30-039-26587) located 2,240' FSL and 1,980' FWL of Section 11-T26N-R2W, was drilled to a total depth of 6,282', completed on April 10, 2002 as a Mesaverde well and has produced 884 barrels of oil and 77,155 MCF/G through September 2002.

The proposed well is closer than 660 feet to the eastern boundary of the proration unit, causing a non-standard location. The well is proposed at this unorthodox location due to numerous cultural artifacts being prevalent all along the standard locations as set out in the attached letter from the Archeologist that conducted the Survey as approved by the Jicarilla Tribe.

A copy of this Application is being submitted to the Jicarilla Tribe who is the only other offsetting owner, by certified mail with a request that they furnish your office in Santa Fe a Waiver of Objection.

Attached is a well location plat showing dedicated acreage (C-102), a topographic plat of the area, and a map showing all offsetting owners.

Your favorable consideration of this request would be appreciated.

Sincerely,

Richard Corcoran

Doug,

In early November of 2002, we, Biologist, along with Surveyors, examined Jicarilla 96 #5C, which was staked at 1600'FSL & 1980'FWL of Section 11, Township 26 North, Range 3 West. This location was found to have cultural resources along the entire ridge. Jicarilla 96 #5C was later staked at 660'FSL & 2600'FWL in the same section. This location was clear of cultural resources.

The details are found in report #CR-2002-760 from this office.

Sincerely,
