HAND-DELIVERED

Mark E. Fesmire, P.E. Director Oil Conservation Division New Mexico Department of Energy, Minerals and Natural Resources 1220 South Saint Francis Drive Santa Fe, New Mexico 87505

Application of BOPCO, L.P. for administrative approval of an unorthodox Re: well location for its Poker Lake Unit 293 Well No. 1H/2H to be drilled from a surface location and penetration point 810 feet from the North line and 1980 feet from the East line of Section 21 and a bottomhole location 1650 feet from the North line and 1950 feet from the East line of Section 27 for the first lateral and a bottomhole location 330 feet from the North line and 330 feet from the East line of Section 17 for the second lateral, Township 24 South, Range 30 East, NMPM, Eddy County, New Mexico.

Dear Mr. Fesmire:

BOPCO, L.P. ("BOPCO") hereby seeks administrative approval pursuant to the previsions of Division Rules 19.15.15.13 and 19.15.16.14 for an unorthodox well location for its Poker Lake Unit 293 Well No. 1H/2H. This well will be located in Sections 16, 17, 21, 22 and 27, Township 24 South, Range 30 East, N.M.P.M., Eddy County, New Mexico and is to be drilled in the Delaware formation at a surface location and a penetration point 810 feet from the North line and 1980 feet from the East line of Section 21 and a bottomhole location 1650 feet from the North line and 1950 feet from the East line of Section 27 for the first lateral and a bottomhole location of 330 feet from the North and East lines of Section 17 for the second lateral, Eddy County, New Mexico. A 760-acre project area has been dedicated to this horizontal well comprised of the NW/4 NE/4, S/2 NE/4 and NE/4 SE/4 of Section 21, the NW/4 SW/4 and S/2 SW/4 of Section 22, the NE/4 NW/4 and the W/2 NE/4 of Section 27, the SW/4 SE/4, SE/4 SW/4, N/2 SW/4, S/2 NW/4, NW/4 NW/4 of Section 16 and the NE/4 NE/4 of Section 17.

This location is unorthodox because the Delaware formation under this acreage is governed by the Division's statewide rules which provide for wells on 40-acre spacing

units to be located no closer than 330 feet to the outer boundary of the spacing unit. The proposed well is unorthodox because portions of the Producing Interval, as defined by Division Rule 19.15.16.7, fall outside of the Producing Area dedicated to the well.

Exhibit A is a plat showing the location of the well. The Project Area for the well is entirely within the boundaries of the Poker Lake Unit which is operated by BOPCO. Also, working interest ownership is common in the Project Area and in the areas towards which the well is encroaching/falls outside the Producing Area.

Exhibit B is the C-102 for this well.

Your attention to this application is appreciated.

Sincerely,

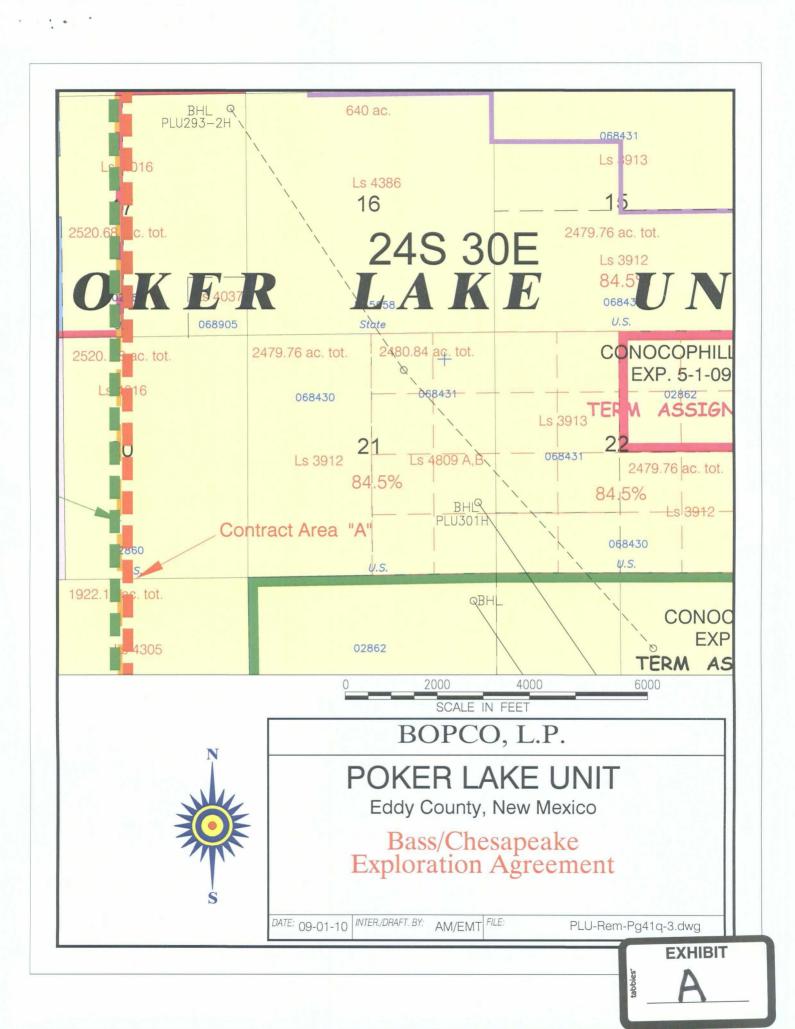

Ocean Munds-Dry

ATTORNEY FOR BOPCO, L.P.

Ocean Munds-Br.

BOPCO, LP; Poker Lake Unit 293 #1H/2H

Dear Ocean

I have in hand you application for NSL approval for this multilateral, horizontal well. As I read the application, NSL approval is requested for both laterals. However, the C-102 attached depicts only the project area for what you have called the first lateral.

I would appreciate you furnishing also a C-102 showing the projected course of the well and the designated project area for the second lateral also.

Thanks

David
