OCD Case Number 1R0425-01

Oil Conservation Division
1220 S. St. Francis Drive
Santa Fe, NM 87505

Sent via E-mail and Certified U.S. Mail w Return Receipt No. 7008 1140 0001 3068 8715

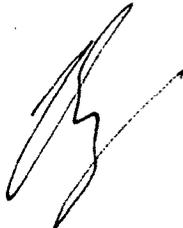

Mr. Hansen:

Please be advised that Rice Operating Company has plugged and abandoned the monitor wells (MW-1, MW-2, MW-3 and MW-4) located at the VAC E-2 Jct site per the specifications given in the NMOCD notice of termination sent via e-mail on October 6th, 2010. These monitor wells were plugged on October 20th, 2010 with cement grout containing between 1% to 3% bentonite and a 3 foot cap of cement (see attached driller's reports and photos). With this action we understand that Rice Operating Company has fulfilled their requirements under 19.15.29 NMAC for this project.

Rice Operating Company is the service provider (agent) for the Vacuum Salt Water Disposal (SWD) System and has no ownership of any portion of pipeline, well or facility. The Vacuum SWD System is owned by a consortium of oil producers, System Parties, who provide all operating capital on a percentage ownership/usage basis.

Thank you for your consideration.

Sincerely,

L. Peter Galusky, Jr. Ph.D.
