Proposed Corrective Actions Approval**

Dear Mr. Conder:

The New Mexico Oil Conservation Division (OCD) has received the report and proposed corrective actions for the BD E-15 Release Site, dated December 16, 2011, and has conducted a review of the report and proposed corrective actions. The proposed corrective actions, submitted in partial fulfillment of 19.15.30.13 NMAC, indicates that Plains has partially met the requirements of 19.15.30.17 NMAC for this site. Therefore, the OCD hereby conditionally approves the above-referenced proposed corrective actions (and plugging report) for the BD E-15 Release Site:

ROC must submit to the OCD a progress / monitoring report within 120 days.

Please be advised that OCD approval of these proposed corrective actions does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.

If you have any questions regarding this matter, please contact me at 505-476-3489.
